Keep in mind, checking out evaluations can help you make notified decisions about what to review next and can reveal you to new authors and categories you could not have thought about previously.

REVIEW OF JIS STANDARD

HANDBOOK MACHINE ELEMENTS

- If you just want to be affirmed that housework can wait, get this book. If you want real help thinking through the problem of too much housework and not enough time, this book will not help you.
- What begins as compelling and titillating finally wears the reader down with all the overstuffed banality of pornography. While it may be argued that the surfeit of sex and violence is precisely the point in capturing the excesses of so gross a personage as Elizabeth Bathory, I question why the author felt he also had to explore the kinks of the modern day narrator and his companions, all of whom seem to flirt with an obsession for sex and violence reminiscent of their twisted ancestor. The implication that they are all somehow reincarnations of Elizabeth and her victims, or possessed by their evil spirits, seems a contrivance, and the idea that we are supposed to glean some meaningful historical significance out of this, or some revealing message about the current political state of affairs in Hungary and central Europe is a real stretch. Although Mr. Codrescu's style is fluid and precise, ultimately *The Blood Countess* had the faint odor of authorial self-indulgence about it and it left me feeling overwhelmed, exhausted and turned off. Malcolm Logan
