Remember, reading testimonials can assist you make educated decisions about what to check out following and can subject you to new writers and styles you may not have actually considered before.

REVIEW OF FIVE LITTLE PIGS

- If you like adventure, you have to read this! The different plot lines are exquisitely wound together to create a fantastic adventure. It has a politics, submarine battles, tank battles, air force battles, it is awesome! And the ending is phenomenal! This book is so good that even if you have read it, it is a great book to read again on a long trip. (If you have room in your luggage for only one book, bring this one!) This is the best Tom Clancy novel ever. And Larry Bond should have a credit for this! (The Author's note says "Although Larry's name does not appear on the title page, this book is his as much as mine. We never did figure out a

division of labor, but what Larry and I accomplished was to complete a book as co-authors when our only contract as a handshake")

- A comprehensive account of the education, career, life as a fugitive, and strange death of one of the most notorious of the Nazi war criminals. Posner and Ware use thoroughly researched historical sources, including Mengele's own autobiography to tell this story. To his education and strange doctoral thesis in anthropology on "Racial Morphological Research on the Lower Jaw Section of Four Racial Groups," to his bizarre medical career involving his well known human experimentation and his less well known job of interviewing and examining subjects to determine their racial purity, the authors do a fine job of recounting Mengele's early education and career. Of greater interest, however, is the story of his escape from Europe and life on the run in various South American countries. The story of how he was able to evade for 33 years the most comprehensive manhunt (probably in history), makes for interesting reading. The book recounts how he was able to make and maintain strategic friends and alliances, in South America, and hold onto contacts, friends, and family still living in Germany. Included is the story of a fascinating account of the visit of his son Rolf, about 1 year before his father's death, in a secret rendezvous in Sao Paulo, Brazil, in which Rolf confronted his father and made him justify his involvement in some of history's worst atrocities. This book shows how the world's most hunted man was able to evade capture, cultivate friends and alliances, and even receive medical care under an assumed identity. In light of recent events, raises

questions in the reader's mind if such a notorious figure (such as Osama bin Ladin) could do as well, escaping capture over a manhunt lasting decades. A truly interesting story, well worth the moderate time investment to read. ...
