Remember, reading reviews can assist you make informed choices regarding what to read following and can reveal you to new writers and genres you may not have considered before.

REVIEW OF EDUCATIONAL TECHNOLOGY FOR TEACHING AND LEARNING 4TH EDITION

- I have really struggled to get the authentic flavor until I found this book. What a treat to be able to finally make delicious Indian foods correctly. What

she teaches is Northern Indian cooking which of course immediately will appeal to the American cook. Don't try to cut corners or ingredients until you get the concepts down. Cooking times are especially important to get the flavor right. The only downfall to this book is that once you get the recipies down you may never want to eat out again in an Indian restaurant as you'll have one at home! If you want to do this right, you need this book!

- This book begins at the beginning, which is more than can be said with most "self-help" type material. Rather than trying to "patch the hole" superficially, Lutzer goes to the heart of the matter, addressing the reasons people fail to overcome bad habits. Actually, I don't consider it "self-help" at all. "God-help" is more like it. This book focuses on the practical principles of allowing God to strengthen you toward ending the habit. If you simply want a "quick-fix" to whatever habit you may have, you will be disappointed. However, if you are willing to read the book through to the end, you will find the encouragement and understanding we all need in order to fight the temptations that we all face. Lutzer uses timely illustrations and Biblical references that will usually make you say "Oh...duh, why didn't I think of that?" I HIGHLY recommend this short book to anyone interested in God changing his or her life in a dynamic way.
