In the tradition of Iron and Silk and Touch the Dragon, Jamie Zeppa's memoir of her years in Bhutan is the story of a young woman's self-discovery in a foreign land. It is also the exciting début of a new voice in travel writing. When she left for the Himalayan kingdom of Bhutan in 1988, Zeppa was committing herself to two years of teaching and a daunting new experience. A week on a Caribbean beach had been her only previous trip outside Canada; Bhutan was on the other side of the world, one of the most isolated countries in the world known as the last Shangri-La, where little had changed in centuries and visits by foreigners were restricted. Clinging to her bags full of chocolate, hair conditioner and Immodium, she began the biggest challenge of her life, with no idea she would fall in love with the country and with a Bhutanese man, end up spending nine years in Bhutan, and begin a literary career with her account of this transformative journey. At her first posting in a remote village of eastern Bhutan, she is plunged into an overwhelmingly different culture with squalid Third World conditions and an impossible language. Her house has rats and fleas and she refuses to eat the local food, fearing the rampant deadly infections her overly protective grandfather warned her about. Gradually, however, her fear vanishes. She adjusts, begins to laugh, and is captivated by the pristine mountain scenery and the kind students in her grade 2 class. She also begins to discover for herself the spiritual serenity of Buddhism. A transfer to the government college of Sherubtse, where the housing conditions are comparatively luxurious and the students closer to her own age, gives her a deeper awareness of Bhutan's challenges: the lack of personal privacy, the pressure to conform, and the political tensions. However, her connection to Bhutan intensifies when she falls in love with a student, Tshewang, and finds herself pregnant. After a brief sojourn in Canada to give birth to her son, Pema Dorji, she marries Tshewang and makes Bhutan her home for another four years. Zeppa's personal essay about her culture shock on arriving in Bhutan won the 1996 CBC/Saturday Night literary competition and appeared in the magazine. She flew home to accept the prize, where people encouraged her to pursue her writing. Her letters from Bhutan also featured on CBC's Morningside. The book that grew out of this has been published in Canada and the United States to ecstatic reviews, followed by British, German, Dutch, Italian and Spanish editions. Although cultural differences finally separated Jamie and Tshewang in 1997 while she was writing the book and she returned to Canada, she will always feel at home in Bhutan. Zeppa shares her compelling insights into this land and culture, but *Beyond the Sky and the Earth* is more than a travel book. With rich, spellbinding prose and bright humour, it describes a personal journey in which Zeppa acquires a deeper understanding of what it means to leave one's home behind, and undergoes a spiritual transformation.

Tucked away in the eastern end of the Himalayas lies Bhutan: a tiny, landlocked country bordering China, India, and Nepal. One of the most remote places in the world, Bhutan is rich in natural beauty, exotic landscapes, and ancient wisdom, where people are genuinely happy with very few material possessions and the government embraces "Gross National Happiness" instead of Gross National Product. As one of the few Americans to have lived in Bhutan, Linda Leaming offers a rare glimpse at the peaceful mountain kingdom so many have only dreamed of. For over ten years, Leaming has lived and taught in the small town of Thimphu, where there are fewer than 100,000 people and no traffic lights. "If enlightenment is possible anywhere," she writes, "I think it is particularly possible here." The Bhutanese way of life—quieter, slower, and more tranquil—can seem daunting to most Westerners, consumed with time, dates, speed, and efficiency. In Bhutan, people rarely check their e-mail and take their time answering their telephones. But, as Leaming shows us, a little patience—over a cup of warm tea and friendly conversation—can help soothe the most distressed mind and soul. In this funny, magical memoir, Leaming takes us with her on her travels through South Asia, sharing her experiences as she learns the language, customs, and religion; folklore of a revered Tibetan holy man who gave blessings to the people by whacking them on the head with a big wooden phallus; her unlikely romance with a Buddhist artist; and her discoveries about the unexpected path to happiness and accidental enlightenment, where true bliss resides. Married to Bhutan is a reminder that following our dreams is the way to be truly happy.

## REVIEW OF LONELY PLANET BHUTAN TRAVEL GUIDE

- ...you'd have to be to enjoy this book. Okay, I know it's fiction, but sooo many aspects of this book are ridiculously unbelievable. It started off with promise, but it seems as if he lost his way and just needed to finish the book. I've read the first three in this series so far. I'm glad I did, because if I had read this one first, I wouldn't have bothered with any more of his books. He's as awesome writer and his writing style keeps you on the edge of your seat, but I fell off while reading this one! Skip this one and move on to the next in the series. Hopefully, he recovered from his writer's block in his subsequent novels.

- I purchased this ebook for my Kindle Fire and it was delivered instantly. A great read on a long trip!
