REVIEW OF OPTIMAL CONTROL THEORY AN INTRODUCTION SOLUTION

- The Stranger starts out with the main character, Monsiuer Meursault finding out that his mother had died. Meursault was a low income hard worker who could not support his mother at home, so he sent her to an old peoples home in the country. This was the first of his so-called sins used against him later. At first it

would seem as though Meursault wasn't sorrowful of his mothers passing, but Meursaults main foible was that of his taciturn nature and unwillingness to show emotion. Later in the story he commits murder in a vehement moment of rage. All of a sudden he is thrown in to a trial with a magistrate. All of Meursaults little mistakes are brought to the attention of the jury, including the fact of his unresponsiveness to a priest and religion as a whole. This author did a great job writing this book and showing how society can tear a person apart using small insignificant mistakes. The author throughout the book shows exactly what Meursault is thinking plus his views on certain matters. The author also points out the flaws of religion and how God is not for everyone and should not be pushed upon by someone. I picked up this book not knowing what it was and enjoyed how Camus could fit all this into a book that is less than 140 pages. It was a quick easy to read story. It was insightfully written and give credit to Matthew Ward for translating it into English so well.

- For anyone who has ever worked for a living; for anyone who has ever had a boss or been a boss; THE BIG BING is a must read! The collection is a quick and humorous study of human behavior in corporate America. Nobody tells this story better than Stanley Bing!
