- The Autobiography of Benjamin Franklin, although self-serving, made some excellent points. He was an excellent networker, and was way ahead of some current gurus on how to get ahead in the business world. However, he proved with his son that he could hold a grudge. He also neglected his wife. He had a fine sense of timing in political matters and knew the value of patience and persistence in his time in France and England.

- He was an icon in France. He spent years there and the people loved him. His electricity demonstrations inspired many to pursue science. The boat was way off course and sank in sight of land. He made it to the shores of Spain and since the last caravan had already left, he had to cross the Pyrenees Mountains by himself using a donkey. He made it to Amsterdam after a long journey to make his case for financial help. He wasn't a quitter. He started the American library system, fire department, postal system, etc. Inventor.
