Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Drawing from the author's vast experience as teacher, researcher, and practitioner, Lawrence Shulman's DYNAMICS AND SKILLS OF GROUP COUNSELING equips students in the helping professions with a solid introduction to methods for effective group counseling. Guided by theory, empirical research, years of teaching experience, his own group practice, and the wisdom of colleagues, Shulman's text brings concepts to life with vivid cases that include Record of Service reports and dialogue from actual groups. These illustrative examples connect theory to current practice and address the day-to-day realities of leading counseling groups. Extremely practical, the book presents students with a clear format on how to run a group built around four phases of work: the preliminary (preparatory) phase; the beginning (contracting) phase; the middle (work) phase; and the ending and transition phase. Recognizing the broad applications of these methods, the latter part of the text shows how these lessons can be applied to a wide range of settings. Reflecting the latest research and practices, DYNAMICS AND SKILLS OF GROUP COUNSELING delivers an insightful, authoritative, and comprehensive introduction to the field. Edwards takes a postmodern, social construction approach, looking for and amplifying strengths and encouraging stakeholders to use them. Based on research in brain science, as well as from the Information Age/Connectivity Age thinking, the book reframes the focus of supervision, management, and leadership to one that collaborates and builds on strengths with supervisees as competent stakeholders in their work with their clients.

Applying Theory to Practice on the Diverse Campus Group Leadership Skills Interpersonal Process in Group Counseling and Therapy

Might it be possible that neuroscience, in particular interpersonal neurobiology, can illuminate the unique ways that group processes collaborate with and enhance the brain's natural developmental and repairing processes? This book brings together the work of twelve contemporary group therapists and practitioners who are exploring this possibility through applying the principles of interpersonal neurobiology (IPNB) to a variety of approaches to group therapy and experiential learning groups. IPNB's focus on how human beings shape one another's brains throughout the life span makes it a natural fit for those of us who are involved in bringing people together so that, through their interactions, they may better understand and transform their own deeper mind and relational patterns. Group is a unique context that can trigger, amplify, contain, and provide resonance for a broad range of human experiences, creating robust conditions for changing the brain.

REVIEW OF GROUP LEADERSHIP SKILLS INTERPERSONAL PROCESS IN

• This is not good! I resent authors who formulate a story based on another writer's success. Just for the record--we all can spot the Nicholas Sparks, Danielle Steele and Mary Higgins Clark's of the world ... They do not respect their readers only their pocketbooks. (Same story over and over, new characters.) Mr. Patterson, you are too good for this. I am mad. I bought this book a while back and forgot I had read it, so I did it again. By the time I realized I had already read it I was well into it, I figured, well, I have already read it, but it's a Patterson, so it will be a good read. Well I am throwing it out so I don't do this again!! Don't write from a woman's perspective. You don't HAVE a woman's perspective, i.e. "voice"! I love the Women's Murder series and it translated beautifully to tv. We miss it a lot. I've pre-ordered #8. You rock at what you do. Stay with it!

• I bought this book intending to read it after a hard day at work. I couldn't put it down. It has it all... a bit of mystery, love.... This is my new favorite by James Patterson. A great read for a lazy summer day!
