REVIEW OF MACBETH ACT 1 STUDY GUIDE

- I came into this book expecting one thing. After the first part, Perhaps an Accident, my expectations had completely altered. As I read through the second part, Marquesa de Montemeyor, my expectations were slowly changing even more. By the beginning of the third part, Esteban, my expectations had transformed so much they were hardly recognizable. I came into it expecting a novel about a man of religion's struggle with faith. By the first few pages I came to realize it had much more of a non-fiction lean, at this point I was scared of being bored. As I started to read part two I began to realize it wasn't about this Brother Juniper at all but the people in the accident. Throughout parts of the first chapter I have to admit I did feel bored, but near the end it

caught fire and I was wowed by the first part's finish. This reinvested my firm belief that the ending of a short story will completely redeem it, for that's what each part was: a short story telling the complete life of one of the victims in the accident of the bridge. The story of Thornton Wilder's Pulitzer Prize winner is that a bridge (the finest bridge in all of Peru) snapped and five travelers fell to their death. Brother Jupiter decided to use this accident to prove that it was God's will. This man found it more difficult than he expected discovering an ambiguity in life that he had not seen. Basically the novel to me is detailing the complexity and mystery of life. I would say the way *The Bridge of San Luis Rey* was written was, generally, not exceptionally appealing to me. It was told almost exactly like a textbook account of the events. Using this method though, there were dazzling moments when the book flowed like poetry. The book also seemed slightly tedious at times. Certain sections were difficult to get through but as I pressed on I felt a certain gratification, in knowing that I was being shown snapshots of life that were almost as real as they get. Despite these downfalls (which had their upshots as well), the meaning of the book made it for me. The characters were all taken on spiritual journeys and though each story ended in death, which was a death too early for all of them, there was a certain bittersweet happiness in their soulful accomplishments. In total I would suggest the *Bridge of San Luis Rey* but only if you're willing to fully concentrate whenever you pick this book up. It can be a beautiful book but only if first acknowledged as a tough book.

- After many, many recommendations, this was the first Anya Seton book I read. This story of reincarnation has been in my possession for many years so I don't know why I had procrastinated for so long. I had even picked up a hardback edition when I visited the bookstore capital of the world, Hay-on-Wye in Wales last year. Somehow, I knew once I read it that it was going to become a keeper. At any rate, I am sorry I didn't read it earlier, because I certainly savored every page. The first portion of the book is set in 1968. American heiress Celia Taylor has married Richard Marsdon after meeting the young British nobleman on a cruise. They are blissfully happy and living on his

Sussex estate when, during a visit to nearby ruins of a cathedral, she experiences some rather bizarre visions and her husband begins to be rather distant. Then, after a visit and tour of Ightham Mote, a manor house in the next county, she rather mysteriously faints. Her friend Dr. Akananda is worried. And he, but only he, knows what is going on. When Celia lapses into a catatonic state after hosting a dinner party, her future is very much at risk. It appears she needs to relive the events of her prior life before she can find happiness in the present. At this point, the next 400+ pages of the book is set in the 1550s beginning with a visit of the young King Edward VI to the estate where Celia, now 15-year-old Celia Bohun, is living with her aunt Ursula. There she meets Stephen Marsdon, the young monk who has become the house priest for the estate, albeit covertly in the now protestant country, as decreed by Edward's father, Henry VIII. Celia is immediately smitten. The book is intricately detailed with history of the period and characters meet and have conversations with Edward and then Mary and other historical figures of the time as the political and religious structure of the country has gone from Catholic to protestant and then back to Catholic again. It is interesting to discover who the counterparts of the dinner guests of Celia and Richard Marston in 1968 are in the 16th C. It is clear early on that Ursula is Lily (Celia's mother) and Julian, the Italian physician, is Dr. Akananda. Some of the other characters aren't as apparent until later and it would be seen as a spoiler to reveal them here. A small warning, don't do as I did and put names of some of the secondary characters into an internet search engine. Doing this with one character revealed a major spoiler nearly 100 years before the book told of it. It was also very interesting to discover that two of the secondary characters were ancestors of Franklin Delano Roosevelt. So, for those who want to know more about the historical figures - major and minor - of the 16 C., I urge you to do so but wait until the book is completed. Even though some of the details were a mystery, the eventual outcome of Stephen and Celia was pretty much known from the beginning. That said, the next to the last portion of the book where their 16th C. destinies are played out is some of the most dramatic of the entire book. I'm not much into re-reading books - but this one is certainly going on my keeper shelf.
