## **REVIEW OF DEUTSCH ACTIV NEU LEHRBUCH DEUTSCH AKTIV NEU LEVEL 1C**

- Mrs. Boynton sorrowfully reached her "appointment with death" sooner than usual in Agatha Christie's enthralling book. The twisting plot and realistic characters keep you on the edge of your seat as you wade deeper into the unpredictable story. Agatha Christie's magic has once again weaved its way into one of her finest stories, Appointment with Death. Everyone is on their feet cheering the Belgian detective, Hercules Poirot, as he uses his "little gray cells" in order to determine not who would kill Mrs. Boynton, but who would not kill this old, cruel witch. The characters, although not my favorite part of this book, were unlike any I have ever read about before. Mrs. Boynton a cruel, power-hungry, old woman is hated by everyone in this enriching plot. She is a failure with a thirst for power that is fed by bossing around her family. Everyone has a reasonable motive for killing Mrs. Boynton, especially her "devoted" yet unhappy family. Hercules Poirot is the other main character in this book. He is possibly the most important. He is a Belgian detective who is extremely proud of two things, his mustache and his "little gray cells." He sets out to examine the suspicious circumstances and bring the clever murderer into the spotlight. Murderers on the run with a brilliant Belgian detective hot on the trail... plots don't get much more exciting than that. This is the exciting plot expressed in Agatha Christie's Appointment with Death. The

captivity faced by Mrs. Boynton's family, and the prospect of one of the family being the horrible murderer is almost too much to bear. One of the great things about the plot is that the emotion displayed pulls you into the story. This plot was so unexpected and complex that I was kept guessing as to the murderer's identity until the very end. The only way to truly express the feeling put into the plot is to say that Agatha Christie's light shines again. The only thing in this book that thoroughly disappointed me was the setting. It did not take away from the rest of the book, however, it did not add "wow" factor to the story. I felt like it was a normal everyday setting and that is not what I was looking for in Agatha Christie's book. The setting helped make the whole story more believable, but most mystery lovers are not looking for a realistic, believable book. Instead they are looking for an exciting thrilling book. I felt that Agatha Christie did not live up to her name with this setting. Appointment with Death was, overall, a thrilling mystery book. I was thoroughly delighted with Agatha Christie's effort and felt that her feelings showed throughout it. The plot and characters added a breathtaking "wow" factor that kept me up all night reading this book. The setting, although not bad, did not contribute anything unique to the book. Overall, it was a great book for mystery readers of all ages. Agatha Christie has done it again, creating one of the world's finest mystery stories.

- An excellent book. I know of nothing else published in the last several decades that sheds more light on the underlying structure of all facets of contemporary discussion on public policy. However,

the book's insights also illuminate far more widely than that: just one important example would be how people choose to raise and discipline their children. The book examines, from a scholarly and historical perspective, the two primary sets of underlying assumptions people hold about human nature. Since these assumptions are usually not consciously considered or questioned by an adherent of either camp, and since a person then usually presumes these assumptions are obvious facts describing the world, an adherent of an opposing camp in any debate appears, at best, severely misguided to, at worst, underhandedly malevolent. The two sets of assumptions (called by Sowell: Visions) contradict each other, so both cannot be true (neither might have been, at least, in all of their particulars). However, Dr. Sowell waits until his subsequent book, "The Vision of the Anointed," to adduce the historical, sociological, and psychological evidence that decides which of the Visions indeed reflects reality. I recommend reading "A Conflict of Visions" first since it prepares the stage and does not take sides. I think a reader would find "Vision of the Anointed" somewhat polemical and tendentious otherwise, especially if he or she subscribed to that Vision whose tenets are in there debunked. (This strategy would help the reader to maintain an open mind; a person unconvincibly reading a book is wasting his time.) I found Sowell's tone very forgivable since he decries, obviously sincerely, the destructive effects on countless lives spanning centuries (and continuing) of the state policies derived from the mistaken and failed Vision; while salutary courses of action, based on the alternative Vision, were always available, usually discussed, and often ignored.
