REVIEW OF BUILDINGS OF EARTH STRAW

- As relevant today as it was when it was written. Breakfast of Champions tells of a story of 2 individual's paths that are destined to cross. Satire at it's best, made me laugh so many times. This is a easy read, and not as dark as some of Vonnegut's other books, like Sirens of Titan or Mother Night. I don't consider this one of Vonnegut's masterpieces like Slaughterhouse 5, Sirens of Titan, Cats Cradle and Mother Night, but it's definitely a fun read
- Although this novel was at times childish, shocking, humorous, and perhaps even a bit disturbing, I think Vonnegut effectively conveyed his feelings concerning the more peculiar social fixations and oddities that are prevalent in our time. However, what moved me most out of all of Vonnegut's

blatant strikes were his remarks concerning the value of characters in literature. Of course, almost anybody reading this book can pick out a few characters who they consider to be "main" or key characters consistently throughout the novel, but Vonnegut raises the question of the equality of characters in a novel. While Vonnegut was not completely successful in blurring the status of the main characters in his novel, I felt like his attempt at creating his supporting characters as equals was well done and I commend him for it. I'm sure Vonnegut realizes that a story in which all characters are equal in detail/depth/development would destroy the staggered levels of complexity that make literature so fascinating, but raising the question in reality caused me to stop and think. Vonnegut's illustrations prove why he's a writer rather than an artist, but I guess I appreciate how the drawings made the pages go by more quickly.
