REVIEW OF CUMMINS KTA50 MARINE SERVICE MANUAL DEBIED

- An excellent read, thrilling and provocative. Bradbury has a gift for descriptions, and he makes a wonderful story even better through his use of language. A future civilization has banned books, and it's the firemen's job to burn any books people have hidden, and the houses in which they are concealed. Guy Montag is a fireman who has done his job for ten years, never questioning the pleasure of seeing books burned and consumed by flames. Then he meets a girl who shows him that life is not all burning and speeding. She shows him that if you take the time, life has a deeper meaning. He begins to question the burning of all the books he never had time to read and understand. He is driven by a madness to find out

what the books say. Unfortunately, he'll have to break a few laws and give up the life which he's lived for so long. He has to make a choice between the illegal life he never knew and the ignorant life as a fireman.

- This book is very intriguing both in what its theme is and also in how much the main character changes throughout the course of the story. It has great descriptions even if they are abstract and also a great development of characters within an action plot. I would have to say that my favorite character in the entire book was Clarisse. She seemed so soft, so fresh, so new, and so likeable, especially compared with some of the other characters in the book. She was so full of life and the joys she could find in it that I really enjoyed her character and I was very sad when she dies. This book always kept me interested with its implications and its deep meanings and because of that it always kept me thinking. I would have to stop for a few minutes to think about what I had just read but that is a good thing and it made me feel like I became more familiar with the book because of it. Overall I think that it is a very well written book in every aspect. The main character though not very likeable in the beginning becomes someone you can and want to cheer for as the book progresses. I really enjoyed reading this book and am glad that I did pick this book to read.
