REVIEW OF SPALDING SPELLING LISTS

• There are so many other books to read that are fantastic in scope. If you value great storytelling, I suggest reading other authors, such as Garth Nix. His books are so much better than this "book," and like others before me, I wonder how this was published.

• Most people that truly practice and work at their craft (J.V. Jones is a good example) get better with experience. The Baker's Boy sold very well but was a poorly written book. By the third book of her Book of Words trilogy, Master and Fool, her writing had significantly matured. In fact, it was almost as if an entirely different person had written the books, so great was the improvement. You could tell that she really applied herself, and tried hard to be a *good* writer. It is likely that Paolini, as the intelligent young man we know him to be, will similarly grow in his craft. However, he's just not there yet.If this book had been written by, say, a Vicar of the Church of England, it would still be a poorly written book. Just because he's fifteen doesn't mean that you excuse the wealth of mistakes that exist here. I, for one, am going to read the second book, but if there isn't any evidence of improvement, that's probably going to be it. (For what it's worth, this is certainly a better book than Shadowmancer. By leaps and bounds.

Shadowmancer was one of those books that deserved a -4 star review.)A work of art has to be judged as a stand alone work of art. You can't look at it through the glasses of the artist that created it, for if you are, then it's not a fair judgment.Any book, whether written by a fifteen year old, a thirty year old, or a seventy year old, that so freely copies other works and introduces so little originality, can NOT be a good book. This holds true for

movies and other forms of art as well. Originality is one of the cornerstones to good art.I don't mean to say that this is not a tremendous accomplishment for a fifteen year old - it is. It's remarkably impressive. The problem is that the book itself is not similarly impressive.Granted, I certainly did not write a book when I was fifteen, so yeah - props to him for that. However, if I'd been home schooled living in isolation and my family ran a publishing company, I probably would have written a book much earlier than I did.
