## REVIEW OF ENGINEERING DRAWING BY PS

**GILL**

• This was an exceptionally written book , that I can relate to .easy for me to understand and thought provoking , which ,when I read a book that is very important to me. I enjoyed reading it so much that I had a hard time putting it down. There aren't many books that intrigue me as much as this one has. I give it two thumbs up !

• Robert Jordan does it again! One of the most premier authors in the epic fantasy genre gives his widespread and dedicated audience another masterpiece. Jordan uses his attention to detail to keep readers wrapped up in his books. Although we have been awaiting the arrival of a new book with patience, this book will give us something to chew on for a while. Josh Ellis,(Durango Colorado)
