REVIEW OF MYLES MUNROE THE SPIRIT OF LEADERSHIP

- This is a well written book, very compelling story, but that title does not do justice to the story. This book is no more about the gulags of Vietnam than it is about the cu chi tunnels of the Mekong delta. The story is a case of mistaken identity; Mr. Toai is mistaken for another Ngo Vuong Toai and apprehended by the communist authorities as they swept thru Ho Chi Minh City after reunification in 1975. As a result of this mistake, Toai is witness

to the brutality of the prison system and the indifference of the communist cadre. He has a very captivating narration style which is refreshing in the prison gulag genre. This is not the Ivan Denisovich day by day account of prison life. Toai cleverly weaves his whole entire biography into the story to illustrate the various stages in the takeover of south Vietnam in the post reunification period. The problem is that Toai is incarcerated in couple of Prisons in Ho Chi Minh City and at no point does he go to the actual gulag. His observations are limited to accounting some new arrivals that had come from the reeducation camps, the Vietnamese euphemism for work camps where prisoners are worked to death. The book doesn't even go into any detail about

these prisoners returning from the gulag. There is scant mention of the camps, no details on their names and locations, and does not go into vast network of work camps and new economic zones. What is most fascinating about this book is the portion where Toai recounts his visit to California in the late 60s. Toai was semi famous in the student movement groups as an agitator against the South Vietnamese Regime. However, personally he was not communist, or anti-communist, but a real nationalist. His disillusion upon meeting the American student organizers in Berkeley was very intriguing. The students were blindly pro communist, and were disappointed that Toai was not more virulent in his support of communism. This book is a great way to learn about the history of Vietnam in

the post reunification period. A period of time that does not get much attention as the American social consciousness evaporated out when our military

involvement stopped.

- Interesting for awhile, but got tired of the same story line day after day. Hike, shoot, photograph for months on end.
