#### **REVIEW OF RACE CAR AERODYNAMICS HOME PAGE OF THE**

- A very trippy novel filled with Freudian imagery! The explicit erotic fantasies and "bitchiness" of the main character, Isadora Wing, were entertaining. However, I found it to be very depressing in general. Although it is refreshing to see a female author write with such sexual inhibition....the plot seems to be lacking realism. Isadora actually made me nauseous at times with her bad selection of boy toys! I think a visit from the personal hygiene fairy would have been nice. She was definitely a woman who was playing with a few cards short of a full deck! In my opinion the first few chapters were the best...and the conclusion was disappointing and left me wanting more closure between Isadora & her husband!

- Convenient collection of Lewis. The book is perhaps too heavy to be handled easily by the elderly or infirm.
