What's going on? Lino Squagliace has been sent to Brazil to report on Excet, a sprawling financial complex which may be ripe for an American takeover. He is overwhelmed by a seemingly random labyrinth of technology, sex, luxury, drugs and financial genius which could be either a gold mine or a land mine. How can Lino cope with a society where the street muggers are young and pretty, adults legally adopt other adults and grown men fight with guns over the right to a parking space? Will he become used to having personal bodyguards, before and behind, who slip in and out of the shadows as he explores this most exotic of cultures? And what will Lino's billionaire patron think of company executives who sometimes embrace Lino (intimately as well as figuratively) but at other times seem bent on manipulating his trusted auditor into being the front man for a complicated financial scam?

REVIEW OF ORACLE PROJECT COSTING USER GUIDE R1

• This is great space alien invasion book. There is a little bit of a war story thrown in. And ESP as well. It really blends all these things together in a very interesting story. I thought the characters were great, especially Mr. Gray the alien. The book is scary, and keeps you guessing all along. I heard this is being made into a movie, and I will be there on opening day.

- Well...I was delighted to see Stephen King return to his classic horror roots after some literary tangents that were great reads but not really "Stephen King" books, if you know what I mean. And I agree that this book is closer to the likes of "It" and "Tommyknockers", and I truly did enjoy it...(don't get me wrong...I've never read a King book that I didn't enjoy)...but compared to his other novels, this one was sort of sub-par. It was a lot like "The Tommyknockers", and I kept flashing back to the telepathy and loose teeth from that story. King does an pretty good job with character and dialogue in this novel, like he always does. He is a master at creating people that you like and can connect with, and his children characters are so engaging that I still consider the "Losers Club" from "It" to be my close, personal friends...but the characters in this story, aside from Duddits, just weren't that engaging. In the end, the novel turns into a long chase scene that takes 200 pages to end. If you are a Stephen King fan, you'll love this book and rank it somewhere in the middle of all the rest. If you've never tried Stephen King, don't start here...go buy "The Stand" or "Salem's Lot"...get hooked...then come back.
