REVIEW OF THE SHELL BITUMEN INDUSTRIAL HANDBOOK 9780951662519

- This book is a fine expression of faith- for liberal Protestants. For Catholics, "JOHCOF" represents the indoctrination of new generations with the same confusion everyone has felt in the recent frenzy in the Church. Used as a teaching tool, this is especially deadly to the Faith. Every thing a Catholic would have learned just half a century ago is openly rebuked in this mess. To the writers, Jesus is just a man who lived in Galilee. Every thing supernatural- from the miracles to the appearance of the star

and the magi at Christ's birth are all analyzed from a "scientific" viewpoint to try and explain away the Divinity of Christ and the historicity of the Gospels. The Church teaching on the authors of the Pentateuch and much of the New Testament are thrown aside; this book prefers to make use of secular "scholars" in cracking the origins of the Bible. The whole book is about "Jesus the Jew," and makes it appear as though He never renounced the immense errors of Judaism. It adds a vocabulary word- "anti-Semitism" for anyone who espouses the traditional teaching on Christ's criticism of the Pharisees and the Jews' eventual murdering of Christ out of envy- both sound Catholic doctrines. The book lacks any element of the rich sacred Catholic Tradition as well.

There are hundreds of images of Jews worshipping in their synagogues and Mohammedans in their mosques but you will find not a single image of the Roman Mass, the only Sacrifice that actually goes to the True God, as used by the Holy Church for 2,000 years. The book teaches the very anti-Christian heresy of syncretism, and denies that the Church is the only way to salvation in Heaven. No teachings about Catholic doctrines such as Purgatory, and nothing about the Popes and the teachings of the Holy Office against heresy. No teachings about the usage of Latin as the universal language of the Church, the language used in the Mass, which is the offering of the Sacrifice at Cavalry, not a meal like the Protestants have. The Catholic Church is just an accident left over by

the life of a Jewish man 2,000 years ago, if this book is to be taken at face value. The only time the Catholic Church is mentioned at all is in the last few pages- to mention the wonderful "fruits" of the "Second Vatican Council," the source of all this confusion. When will these people stop kidding themselves and cut this charade out? It is a shame that something coming out of "St. Mary's Press" is such a sorry piece of work, but there is no doubt this book would hit the Index Librorum Prohibitorum if Pope St. Pius X saw this abominable Modernist piece being circulated. Stick to the doctrinal security of the Roman Catechism, and avoid this large editorial on what liberal laypeople want the Church to teach. Pray for an end of this grand mockery... the Catholic Church is

the Church of the Christ of Faith, Jesus of History established Her in A.D. 33 and She is the Defender of the Sacred Deposit of the Faith, not these Modernists.

- I have the first edition that I have used for years. It has been so helpful. I decided that I needed to get the most recent edition due to breakthroughs in Medical treatments and medications. I didn't have to think about who I trusted for this information. I looked for the American Medical Association Family Medical Guide latest edition and purchased it right away. Again, this guide has not failed me. More information and updated to fit my needs. I recommend getting this book for your family. Easy to read and broken into terms that even your youngest can

understand. Symptom charts are easy to follow and helpful. Get this book, It may just save you life!
