Timberlake:Lab Manual Chemis SSP_9, 9th edition. Karen C. Timberlake. Lab Manual for Chemistry: An Introduction to General, Organic, and Biological Chemistry. ISBN-13: 9780805330250. Includes: Paperback.

FINAL THOUGHT

We hope you're as excited about the world of Chemistry Laboratory Manual Timberlake 9th Edition publications as we are! Our store is committed to giving an exceptional reading experience for all. With our wide range of publications, from brand-new launches to timeless classics, there is something for

everybody. Our dedication to consumer complete satisfaction implies that you can shop confidently, knowing that your order is in great hands.

Don't forget to connect with us and fellow book fans in our vibrant neighborhood. Share your preferred reads, engage in thoughtful conversations, and find brand-new literary prizes. And if you ever require help discovering the best publication, our knowledgeable team is right here to give customized referrals.

REVIEW OF CHEMISTRY LABORATORY MANUAL TIMBERLAKE 9TH EDITION

- When I took a sophomore level anthropology class at my University,

Applying Anthropology was required as a secondary reading text, in addition to Kottak's Anthropology (7th edition). Applying Anthropology contains 52 articles in the categories of Biological Anthropology, Archaeology, Cultural Anthropology, Culture and Communication, Culture and Food, Culture and Race, Economy and Business, Gender and Socialization, Politics & Law & Warfare, and Social & Cultural Change. Instead of being a textbook that was something I just read for the class that required it, it turned out to be a book that I would have bought for my own personal purposes. Also, in addition to enjoying reading it, I learned a lot about anthropology. One of my favorite articles discusses what may have happened on Easter Island that

resulted in the demise of an entire culture. All in all, *Applying Anthropology* provides an interesting approach to learning a lot about culture worldwide.

- Gore Vidal's *Empire* series is pretty much the best thing ever to happen to American historical fiction, and his style alone makes anything of his catalog readable. Readers will no doubt notice that this is the sort of prelude to a critique of someone you admire, and this is indeed what it is. *Hollywood*, Vidal's fifth book in the *Empire* series, qualifies as one of the lower points in a series that has seen nearly unimaginable highs, but this entry often feels more erudite than inspired, and more harping than insightful. This being said, there's much to like in this book. It roughly covers the second Wilson Administration, as well as

the Harding years, and ends shortly after Harding's death. I thought that the political elements of the book are strong--Vidal has always had an uncanny knack for getting in the heads of powerful men, and rendering to life forgotten figures like Harding and Harry Daugherty is admirable and invaluable. Even more appreciated is Vidal's focus on important women--the second Mrs. Wilson and Mrs. Harding both provide vivid presences, just as poor old Mrs. McKinley in *Empire*. Vidal's characterization in this book is a little spotty at times, but there's lots of good stuff to be had here: Harding's arc, in particular, is a fascinating look at how power can change a fundamentally good man, and there's a thoroughly-covered convention scene that has Vidal running on all cylinders. There's also the rise and

fall (mostly fall) of Woodrow Wilson, who is blessedly complicated here as a man of genuine idealism as well as incredible pigheadedness and ambition. Other political notables, like Theodore Roosevelt, make appearances. I've always been amused by Vidal's dark--and evidently accurate--take on Teddy, whose enduring popularity mostly proves that not only are elections popularity contests, but so are historical appraisals. How else could Andrew Jackson find himself anywhere near the top of any lists of presidential historical rankings? So, that's all well and good. But much of this book is given over to a main plot about Caroline Sanford moving to Southern California and becoming something of a minor screen star in silent pictures, having random

encounters with contemporaneous film industry notables, engaging in some affairs, etc. This story isn't followed through quite as nicely as one would have hoped. The story fundamentally lacks dramatic tension, the observations aren't quite fresh enough to count as insightful (really, if stars using drugs and "political" films being whitewashed of any controversy to avoid angering the powers that be are revelations to you, you should pay a little more attention) and while he makes some good narrative argumentation about the importance of movies, there's not much tension in this storyline. Even a murder subplot at the end of the novel can't quite make the material sing (though I echo the official Amazon review--the bathhouse scene is pretty amazing). In any event, Vidal still

has a pretty high batting average when it comes to American historical fiction, despite some of the less compelling material here. Vidal fans will find much to like, but when one thinks of what Vidal could have made of the movie

business and what kind of stories could have been told about it, it just seems like we should expect more from such a legend. And if you're new to Vidal's work, it's probably best to start with Burr or Lincoln.
