REVIEW OF FINANCIAL ACCOUNTING 8TH EDITION WEYGANDT SOLUTIONS

- I read this book once nearly 30 years ago and yet many of the images from it remain vibrant for me. I remember picking up the book in the dorm room of a friend and laughing at the cover blurb: "You emerge from this book as if from a dream, the mind on fire." And my friend said, "You know, the strange thing is that this is a pretty good description." And he and the reviewer were right.

- Thumbs up to Gabriel Garcia Marquez' fantastical epic novel, "100 years of Solitude"! It is the story of Macondo, a fictional South American town founded by the bold patriarch of the Buendia clan, Jose Arcadio Buendia. Twenty households of folks subsist in peace and relative isolation, minding their own business, until hosts of visitors and newcomers, bringing new ideas--scientific, political, and economic--descend upon the sleepy village. These developments, along with the growth and development of the Buendias through generations, lead to unexpected and often bizarre and tragic results. Marquez' imagination seems to know no bounds, as he recounts story after incredible story in ridiculous detail, which are bound together with certain common recurring themes. The style of the novel, "magical realism", means that the most freakish stories are told in the same matter-of-fact tone as the most prosaic ones. Marquez grew up in the home of his grandparents, natural story tellers, who related countless such tall-tales in such a way, blurring the boundaries of reality and unreality. My favorite of these tall tales is the part, toward the end of the book where it rains for "four years, eleven months, and two days". What they went through during that time was hilarious and outlandish! Another big theme is the recurring personalities of the male Buendias across five generations. The author does a good job of creating real and interesting characters, but I particularly enjoyed some of the female ones, as they were each quite different and extraordinary. Ursula, the matriarch, is a central central figure who lives over a hundred years, during which she works endlessly to care for the family throughout the generations. Fernanda, the wife whom Aureliano Segundo takes from a ruined aristocratic family in "the Highlands", never really fits in. The best Fernanda scene is during the rainy season, when she drones on complaining at Aureliano for an incredible three pages with just one sentence! One of the many themes in the book that interest me is the strong sense of irony which pervades the novel on many levels. The overriding irony which also underlies the whole story is the circular nature of time--the recurring personality types and their dysfunctional actions which they seem doomed to repeat. This is an irony of tragic futility. At times it seems tedious, but the author uses it to brilliant effect, and particularly at the end, where the story culminates with one surprising final ironic twist. These are just a few of my ideas and reflections about this monumental work. Lastly, I suggest that you buy one of the other editions of the book because this one is rather flimsy and cheaply made. The Oprah book club edition (which I have not seen) can be had for \$7.00, including shipping, and the hardback for \$11.12, if you click on the words "32 new". I hope this helps. Enjoy!
