#### REVIEW OF MODEL 30 KOHLER POWER

- Longing for vicarious travel? Imagining your college days, interrupted by an Italian adventure ... which turns into one of the romantic kind? And full of the silly things that come with youth, attraction and confusion? I just wanted to add my two-cents on this item, which I found, despite brief lapses in credibility, and hoppingly gullible moments, sufficiently engaging to remind me of my love of Rome. And now I have an even greater appreciation for the breadth and depth of Italian culture and character, and the wonders of eating their special dishes. Fun and satisfying.

- The book was much better. The abridgement was too much and took too much away from the story so that you never got a sense of the characters. It was like they set out to make it a specific length and hacked away until they could just give you a plot synopsis. I gave the book \*\*\*\*.
