The one-of-a-kind narration design, relatable personalities, and story spins make it a beneficial enhancement to your shelf. So, if you're trying to find a fascinating read, Royal Landscape The Gardens And Parks Of Windsor is definitely worth considering.

REVIEW OF ROYAL LANDSCAPE THE GARDENS AND PARKS OF WINDSOR

- Author of this book should qualify as an inventor of the unique style of writing that incorporates magical realism, surrealism and pure scientific invention. It is true that Milorad Pavic wrote better books than this one, but one must admit that writing a book where each chapter represents untold tale of tarot cards is truly original. And does anyone ever gets the full story after cards are read? It appears that there is always something unsaid or unfinished about card reading - tarot or not. The book treats the story the same. In addition to beautiful illustrations done by Ivan Pavic, book contains clusters of wisdom. My favorite one includes the conversation between two lovers, where one says: "We are happy lovers. Aren't we? And happiness makes one stupid. Happiness and wisdom do not go together, just as body and thought do not go together. Because only pain is the thought of the body." For readers looking for something new and different, this is a perfect find.

- Jehovah of the Watchtower goes into not only the religious beliefs of the Jehovah's Witness Cult, but also into the history of it's founder, Charles Taze Russle. It contains almost everything you need to know about the "Watchtower Bible and Tract Society" about the Trinity, the New World Translation of the Holy Scriptures, Blood Transfusions and more.
