## **REVIEW OF STATISTICS FOR BUSINESS DECISION MAKING AND EPICORE**

- C. S. Lewis again weaves personal philosophy into a magical story. Much more than a children's fable, *Till We Have Faces* is a retold myth about three princesses: one beautiful, one ugly, one perfect. Spell-binding and thought-provoking, this novel delves into Orual's intense struggle to discover herself. What she ultimately finds is a pure inner love that equals all beauty. Orual's teacher and mentor, The Fox, exemplifies wisdom and rational thinking. Schooled in logic, he teaches Orual to shun the blind following of common thought and to test truth for herself. Because of the young princess's admiration of The Fox, she comes to question many of the traditional customs and beliefs of her people. Orual's acquisition of knowledge is of itself unusual in her kingdom as she is a woman. On the other hand, Psyche represents the metaphysical realm of imagination. Her ability to heal her diseased subjects by her touch is one evidence of her divinity. Unparalleled beauty and goodness are qualities she alone possesses. Too perfect for her mortality, she is wedded to a god and taken to live in a golden palace. Caught between her love for The Fox and Psyche, Orual is an embodiment of the struggle between the rational and supernatural. When she stabs

herself in the arm, Orual convinces Psyche of her seriousness and concern. But more importantly, this action symbolizes Orual's grasping for reality; in a physical sense, she attempts to convince herself that her world is not one of mystical gods and imaginary palaces. As she persuades Psyche to steal a glance at her husband's face, her realism speaks out and is the source of torment to Psyche as well as to herself. Yet when she herself views the palace of the gods, her reason submits itself to wonder and belief. Even the supernatural must be subject to reason and be proven with Orual's own eyes. As time distances her from Psyche and she takes over the affairs of her kingdom, the Orual of fantasy is lost to a Queen of reason. The veil that Orual dons to disguise her frightful appearance is symbolic of her disillusionment; no one, not even Orual herself, truly knows who she is. Some villagers eventually come to believe that she hides her face because it is unbearably beautiful. They do not even consider the fact that her face might be hideous because of her valiant and majestic actions as Queen. Her engagement in a fencing match and her courageous defense of her country and allies forever solidifies Orual's noble reputation. Her nobility of character paints a face, at least in her subjects' eyes, that is exquisite. The veil hides her face, but symbolically it hides the past. Orual thinks less and less of Psyche as the years go by. But just as her face is still present behind the veil, so is her memory and love of Psyche. Orual begins to experience unusual dreams that are so real she feels like she's living them. They prove to be manifestations of her commitment to Psyche and the devotion she never stopped giving her. The new priest of Ungit is a representation of Orual's realization of truth. The old priest had

frightened her because of his supposedly awesome powers, but Arnom's powers are not at all mysterious to her. Orual finally understands that the bird-like masks, holy rituals, and bloody sacrifices were created by her ancestors and became traditions of her people; she relates these traditions with The Fox's Greek beliefs in the gods and goddesses whose actions explain the natural phenomena of nature, such as rain and harvest. Just as Orual is finally able to define her beliefs, she ultimately is capable of defining herself. However, she first sees herself in the wrong light when she compares herself to Ungit. Like Ungit, she is ugly, and no one can fully comprehend her character. Like Ungit, she is revered. Like Ungit, she is not perfect. Orual's love for Bardia is tainted with selfishness. She fails to see his ever-weakening state as he faithfully serves her. Orual's confrontation with Bardia's wife opens her eyes to her own cruelty. But for a brief moment when she admits her deep love, she literally and symbolically takes off her veil and catches a glimpse of the person she is. That person is Psyche, not Ungit. When the veil is forever stripped from her face and her understanding is complete, Orual sees herself in true light. She is Psyche; her love for her allowed Orual to live for Psyche. Her beauty is perfect. C. S. Lewis forces his reader to ask himself, "What veil do I wear, and what do I hide in

wearing it? Do I know who I really am under such a facade?" As we contemplate these questions, we are forced to see ourselves in a new, untainted light. The final question we must ask ourselves is this: "Can we, like Orual, discover a balance between our fantasies and realities that ultimately reveals our inner beauty?"

- UPON THE CHORE OF MOVING ALL OF OUR STUFF TO ANOTHER CITY....I had the job of selecting the ones I will keep. When I came down to Till We Have Faces, I looked thru it till I realized that it was only one I had failed to read! So it will be my next read after unpacking!! I have enjoyed the first few reviews here printed! I believe I have More C.S. Lewis than any other Author! It seems that my favorite ones have been The Four Loves, The Seven Storey Mountain, The Asian Journal, New Seeds of Contemplation, CONTEMPLATIVE PRAYER, DIALOGUES WITH SILENCE! AS I RECALL BEING IN LOUISVILLE, I DROVE TO THE MONASTERY OF GETHSEMENE and I saw the little house in which he spent time in Solitude writing. When I sat in the Choir for Morning Prayers, plus later in the day for other times of prayer, I realized the Power of Silence & Prayer connected to the liturgy of Chants & Hymns! I surely returned to my Prison Chaplain's office with renewed Vigor! Retired Chaplain Fred W Hood
