REVIEW OF THE GANN WHEEL IS A SQUARE ROOT CALCULATOR

- This book is appalling. I love horror books but this one is written in such an amateurish way that I am sure that Mr Cunningham must return either to his previous job as an art expert or take up a new profession as an extra on the next Flintstones movie. Truly a waste of time.
- The book is in excellent condition. It looks brand new. So far very helpful and useful information. I hope to purchase more titles like this in the future.
