### REVIEW OF CATALOG SICIS

- What a bitter disappointment/a repeat of all books up to now/she meets the zelandoni they are scared of her/ they grow to accept her she has Jondalar's child book ends with her agreeing that she is a Zelondona their name for mog-ur or mamuti. Some of the pages seemed word for word from her other books. It was clear this book was written for profit not because she had anything new or interesting to add.....

- This story is a continuation of the saga of Ayla and Jondalar. If you have forgotten the last books, never fear, every past event and vignette is told (and retold) often. This book has something for everyone but is based on the drama of prehistoric humans trying to eke out a living by merely hunting and gathering. Interspersed with this are lectures/discussions on society, early cooking methods, herbology, abortion(!), mythology, racism, more racism, mating rituals, mysticism and anthropology. Every few pages there are also endless introductions as Ayla meets the Zelandonii. And, of course, just when the reader is about to be lost from the umpteenth repetition of the phrase, "Ninth cave of the Zelandonii", Ayla and Jondalar escape the crowds of Zelandonii, go off on their own, and engage in the steamy romance that has made them famous, and made these books unsuitable for children. The actual plot does not progress much other than Ayla trying to settle into Zelandonii society, mating with Jondalar, and having her baby, Jonayla.
