REVIEW OF LINEAR AND NONLINEAR CIRCUITS

- I have extremely high cholesterol hereditarily. When my doctor and I decided one last try at getting it down through diet, my husband grimaced. (I had been put on straight tuna once and he wasn't looking forward to this!) When I made the first meal from this book, all he could say was, "Wow, it actually tastes wonderful!" But, when I made the chocolate chip cookies, he actually said they were the best he's ever had! We have now made several of the recipes, including the homemade tortilla chips, and have loved each one. This is my FAVORITE low-fat cookbook ever! I just wish they'd come out with another one.

- This is a pretty good effort; however - caveat emptor - I did borrow heavily from Ambrose Bierce's "Devil's Dictionary", so it is rather derivative, howver funny.
