REVIEW OF MCDUGAL ALGEBRA STRUCTURE AND METHOD 1

- The author is an accomplished grower, look for his other books. Lots of good info, pictures.
- This so-called doctor (his degree is from an unaccredited bible school) takes Jewish rituals and attempts to interpret them in a Christian perspective.

However, he skews and misappropriates Jewish material to make it appear that it supports a Christian worldview, and a fundamentalist one at that. Pathetic and insensitive and just the sort of tripe one sees all-too-often among pseudo-preachers of this ilk. He'd do better to get educated about Judaism and read the Talmud--even better yet, he ought to leave Judaism alone and let the Rabbis do the interpreting in the light of their own faith.
