REVIEW OF CHAPTER 12 CHEMISTRY MATTER CHANGE

- I am an avid reader. I will more or less read anything and everything. This, however is the most boring book I have ever read. It's been 3 weeks and I am still on page 100. I just can't get into it. And sometimes feel like I should force myself to finish it. The characters are boring. They never grow or develop. What is the point here?? Why is this book a classic?????

- i was given an advanced copy of this book and i didn't want to read it. i hate 'sports' books. i never even picked this up until after it was already in the library and cataloged and on the shelf. man was i an idiot:)this book is great! wait, it's better than great:) the characters are amazing (and really, they make this book). every distinct, vivid, realistic, snarky, wonderful person in this story rocked.heller meets people over and over in manhattan rather conviniently, and the story line is a little on the, shall we say, unrealistic side. however, these flaws are totally easy to overlook when the dialog happens. (besides, when was the last time i saw a movie with a realistic story line???)absolutely unique.
