REVIEW OF NUCLEAR ENGINEERING KENNETH SHULTIS

- I bought this book because I haven't played soccer since I was a kid so I had some catching up to do. The book is very easy to follow and understand though the writer was constantly referring to the reader as "she" which I found to be both annoying and distracting.

- If you are going to attempt an hCG diet, then you should read this book. Lots of in site as to what to do and what to expect...In other words, a MUST READ!
