Welcome to the world of Jeopardy! where obscure information is crucial to survival, vast sums of cash are at stake, and milliseconds can change not just a game but the course of your entire life. Prisoner of Trebekistan is Bob Harris's hilarious, insightful account of one man's unlikely epic journey through Jeopardy!, gleefully exploring triumph and failure, the nature of memory, and how knowledge itself can transform you in unpredictable ways—all against the backdrop of the most popular quiz show in history. Bob chronicles his transformation from a struggling stand-up comic who repeatedly fails the Jeopardy! audition test into an elite player competing against the show's most powerful brains. To get there, he embarks on a series of intense study sessions, using his sense of humor to transform conventional memory skills into a refreshingly playful approach to learning that's as amusing as it is powerful. What follows is not only a captivating series of high-stakes wins and losses on Jeopardy!, but also a growing appreciation of a borderless world that Bob calls Trebekistan, where a love of learning reigns and the smarter you get the more you realize how much you don't yet know. Filled with secrets that only a veteran contestant could share—from counterintuitive game strategies to Jedi-like tactics with the Jeopardy! signaling device—Prisoner of Trebekistan also gives you the chance to play along with the actual clues that led to victory or defeat in high-level tournaments, plus candid, moving reflections on how the games affected Bob's offstage life—and vice versa. Not only an irresistible treat for Jeopardy! fans, Prisoner of Trebekistan is a delight for anyone who loves a rollicking tale that celebrates the unpredictability of life and the sneaky way it has of teaching us the things that really matter.

Media Flight Plan was developed in response to the need for affordable media planning simulations in the university classroom. Professional level media planning software ranges in price from hundreds to thousands of dollars. Media Flight Plan, including both the textbook and the online simulation, sells at or below the average price of a used textbook. MFP provides university students' access to not only realistic simulations of planning software, but also includes access to professional syndicated data like MRI, SRDS, Nielsen data, (all by permission) and other syndicated sources that only large corporations and agencies can afford. Besides the online software simulation, the text includes eight chapters that cover basics like basic math models involved in media buying/planning, and exercises that cover calculation of audience ratings, media share, reach and frequency, and gross rating points. Case studies are included for actual Fortune 500 clients. All cases require students to interpret and apply professional syndicated data and employ the basic methods for writing marketing driven media plans. Both authors, Dennis Martin and Dale Coons, have professional ad agency experience. Coons is executive vice president in a major agency where he directs research, media planning and client development. He is among the most sought-after experts in the field of advertising research. Martin worked on national brands as a copywriter and creative director and co-authored Strategic Advertising Campaigns, a national best-seller for Advertising Age's publishing division. Earning his Ph.D. at University of Illinois, he achieved national and international recognition as a professor of marketing communications.

### REVIEW OF MATHLETICS INSTANT WORKBOOKS ANSWERS

• The book was alright. I am not going to say really anything bad because I have never wrote a book myself. The book was kind of confusing but not much. The meaning of the book was ok. It was kind of wierd how every one there was the same. The people there did no wrong and if they did they would be hit with some kind of stick. So the book was alright there was nothing wrong with it. So "The Giver" is a good book to me.

• The Giver was an OK book. It had some good parts and bad parts. I liked the middle of the book better than the end. The end kind of kept me hanging in mid-air. You kind of have to interpret your own ending. The way the writer described things was very vivid and easy to imagine. I like the way she made up her own world it basically made the whole book. ~\*~ Lawren ~\*~
