REVIEW OF ISO IEC JTC1 SC22 WG14 C APPROVED STANDARDS

- Indeed a wonderful econ book for all majors! I like especially the chapters on open-economy macroeconomics. However, I do hope to see not only the very illustrative diagrams in the book, but also certain numerical value of the raw data which are used to generate the diagrams. For example, its nice to have the numerical data in Figure 17-2(a) National Saving and Domestic Investment and 17-2(b) Net Foreign Investment so that students can do more precise comparison of the data across different points in time.
- Racing the Moon is probably one of the cleverest books I've ever read. It's so funny and the development of the characters (mainly Darcy) is incredible. Every library should have a copy.
