REVIEW OF AIRCRAFT PROPULSION SAEED FAROKHI SOLUTION MANUAL

- Very long winded, confusing but enthralling at the same time. I would love to know who this story is actually written about.
- Solid, current book on architecture, data marts, OLAP, metadata and DBMS choices, with strong emphasis on Web and intranet development and emerging standards. Could have included more vendor material for ETL & OLAP tools. Good textbook and reference in a fast-changing field.
