Desert Development Harry N. Abrams

The fact that approximately one-third of the world's land mass is arid desert may be congenial for the camel and the cactus, but not for people. Nevertheless, well over half a billion people, or 15% of the world's population live in arid desert areas. If the world's population were distributed evenly over the land surface, we would expect to find about 30% of the population inhabiting arid desert areas. Does the fact that 'only' 15% of the world's population live in an arid desert environment reflect the harshness of the environment? Or is it a testimony to the adaptability and ingenuity of mankind? Do we view the glass as

half-full? Or half-empty? The contributors to *Desert Development: Man and Technology in Sparselands* adopt the position that the cup is half-full and, in fact, could be filled much more. Indeed, many arid desert zones do thrive with life, and given appropriate technological development, such areas could support even greater populations. While the dire Malthusian prediction that rapid world population growth exceeds the carrying capacity of existent resource systems has gained popularity (typified by the 1972 Club of Rome book, *Limits to Growth*), there is a growing body of serious work which rejects such pessimistic 'depletion' models, in favor of models which are mildly optimistic.

REVIEW OF 18 STRIPED FLORAL 9X11 DAILY WEEKLY MONTHLY PLANNER

- I really enjoyed this book, she risked everything to help someone she barely knew, and whom she was supposed to hate!

It was beautiful what she did, and deserves to be called a classic. I have it on tape too and thats really good also. Read it!

- "The Summer of my German Soldier" gives an inside look to what it is like to be outcasted by society, family, friends, and peers. It is an ideal book to teach to high school students. Patty, the main character in the book, is abused by her parents physically as well as emotionally. All she wants is love, and she finds it with a German prisoner, Anton, who was brought to US soil to be held. Germans were not liked by US citizens. It didn't matter if the Germans were soldiers or citizens themselves. The hatred was the same for both. Patty, outcasted by her family, took a liking to Anton. She looked at him for who he was; not what he was. This is an idea that should be instilled in all people. And this is the reason why this is a good book to teach to high school students. It can show them new ways to look at different people.
