We extremely advise this publication to viewers who are searching for a provocative and psychologically impactful read.

REVIEW OF BIG DATA GOOGLE AND DISEASE DETECTION THE STATISTICAL STORY

- I read this book about 16 years ago I'd say and it has been a novel that I have not forgotten. It has love, betrayal, revenge and it has a surprising ending. I find Sidney Sheldon's earlier work much more entertaining and more effort put into the characters and story line. His later work seems like everything is written too quickly and not as much time has gone into planning his storylines and characters. But it has been a while since I've read his newer books so maybe I should pick one up. He still is an author that I enjoy. This one and Master of the Game are two of his very best.

- What can one say about authors like Sidney Sheldon, Harold Robbins and the like? Their novels, while difficult to classify in a specific genre, would make fantastic made-for-tv movies. The Other Side of Midnight is no exception. The story of Noelle Page, a humble fisherman's daughter who became one of the most famous, powerful women in the world. A short affair with Larry Douglas leaves her pregnant and desperately in love, waiting for him to return to marry her. Larry, however, has completely forgotten his promise and moved on. Noelle vows then and there to spend the rest of her life seeking revenge against Larry. This long, sometimes confusing story entwines the lives of Noelle, Larry, and his wife Catherine. The opening scene reveals that Noelle and Larry are on trial for Catherine's murder.... the rest of the book deals with how they got there, starting with Noelle's childhood. It's a gripping read, definitely difficult to put down for more than a few minutes. The worst part, I think, is never being entirely sure who to feel sorry for. None of the characters are entirely evil or without some redeeming qualities, except maybe Larry. Ironically, this was made into a movie by 20th Century Fox. They expected it to be a hit, while Star Wars (made and released at the same time) was expected to be a dud, so they marketed the films as a package deal (theatres that wanted to book The Other Side of Midnight had to contract to book Star Wars first). Well.... it sort of backfired. Star Wars, as everyone knows, took off like a shot, and The Other Side of Midnight floundered and has long been lost to obscurity. The book was definitely much more poignant than the film. I'd recommend it highly as a distraction-read, but literature it ain't.
