REVIEW OF REVUE TECHNIQUE AUTO LE RENAULT 4 TL ET GTL

- At the time I was looking for an algebra book to go back and show me the fundamentals. This book so far is covering what I was looking for and much more. It has good examples so you can understand each of the problems that it shows. I didn't want to pay for a brand new book so that is why I bought a used book, this one was in good shape for used. So always read the description carefully to make sure you don't get a badly used book.

- I love this little Bible! Fits into my purse and is beautiful with the grape vine design on the cover. The print is small, so if you have trouble reading small print this may not be the Bible for you. I don't have a problem reading it though.
