## REVIEW OF JUKI SERVICE MANUAL

- Fahrenheit 451 is a dystopian novel where a Firemans job is not to put out fires but to burst into peoples homes like cops on a drug raid , find their books and then burn them. I thought this was a good book but not on the level of some of my favorite dystopian novels like 1984, Brave New World, Camp of the Saints, The Iron Heel, or even some of HG Wells or Phillip K. Dicks work for their predictive see I told you so qualities.

• This disturbing classic by Ray Bradbury (born 1920) grabs the reader with its chilling tone. Guy Montag is a fireman in a society where fire fighters don't extinguish flames but set fire to books because books are considered a threat by the powers that be. After meeting a free-thinking neighbor and seeing his sick wife mistreated, Montag begins to question his values and the values of a society that burns books. In time he becomes a rebel, flees from the authorities, and meets a group of vagabonds that memorize the books and then burn them (to destroy the evidence). Finally war breaks out, and despite much destruction there is hope that a new society will be rebuilt from

the ashes. Bradbury hits a number of themes in this compelling novel, penned in 1951. Censorship is one, but so is a sense of increasing automation, the dumbing down of society, disdain for independent thinking, and probably McCarthyism. The dialog is snappy with many slang expressions that perhaps were more relevant in 1951 than today. The result, of course, is a somewhat eerie but gripping classic. Readers might also enjoy *THE PEDESTRIAN* and *THE FLYING MACHINE*, two Bradbury short stories that present similar themes.
