George Orwell was a much-respected English novelist, who wrote some of the finest pieces in literary criticism, fiction. Orwell's work is known for its simplicity and wit. He wrote with smartness on subjects such as anti-fascism, democratic socialism etc. His best works include "ANIMAL FARM". It's an allegorical novella. It got published in August 1945. The fiction based on Farm animals, the author has named them too. Such as Major (a majestic-looking pig), 3-dogs (Bluebell, Jessie, and Pincher), many hens, pigeons, ducklings, sheeps and cows. Two horses, Boxer and Clover. Amongst them, Major is their leader. He wanted to speak on "the nature of life on this earth" and "How any animal is now living". The author has nicely elaborated through these Characters about the animals' misery and slavery. Animals complain that despite their hard labour, why then do they continue in the miserable condition? They also complain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. So, remove Man from the scene and the root cause of hunger and overwork will be abolished for ever. The book narrates about the agony of ill-treated farm animals. Then what decision they take and how this Animal Farm born, everything has become very interesting. The ultimate satire on fascism. A must-read book. Is research on antisemitism even necessary in countries with a relatively small Jewish population? Absolutely, as this volume shows. Compared to other countries, research on antisemitism in the Nordic countries (Denmark, the Faroe Islands, Finland, Greenland, Iceland, Norway, and Sweden) is marginalized at an institutional and staffing level, especially as far as antisemitism beyond German fascism, the Second World War, and the Holocaust is concerned. Furthermore, compared to scholarship on other prejudices and minority groups, issues concerning Jews and anti-Jewish stereotypes remain relatively underresearched in Scandinavia - even though antisemitic stereotypes have been present and flourishing in the North ever since the arrival of Christianity, and long before the arrival of the first Jewish communities. This volume aims to help bring the study of antisemitism to the fore, from the medieval period to the present

day. Contributors from all the Nordic countries describe the status of as well as the challenges and desiderata for the study of antisemitism in their respective countries.

Russia possesses one of the richest and most admired literatures of Europe, reaching back to the eleventh century. A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life. The volume proceeds chronologically in five parts, extending from Kievan Rus' in the 11th century to the present day. The coverage strikes a balance between extensive overview and in-depth thematic focus. Parts are organized thematically in chapters, which a number of keywords that are important literary concepts that can serve as connecting motifs and 'case studies', in-depth discussions of writers, institutions, and texts that take the reader up close and. Visual material also underscores the interrelation of the word and image at a number of points, particularly significant in the medieval period and twentieth century. The History addresses major continuities and discontinuities in the history of Russian literature across all periods, and in particular bring out trans-historical features that contribute to the notion of a national literature. The volume's time-range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries, space, Holy Russia, and the charismatic king that offers culturally relevant material to later writers. This volume delivers a fresh view on a series of key questions about Russia's literary history, by providing new mappings of literary history and a narrative that pursues key concepts (rather more than individual authorial careers). This holistic narrative

underscores the ways in which context and text are densely woven in Russian literature, and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures, historical events and literary politics, literary theory and literary innovation.

Boken presenterer lesninger av et variert utvalg tekster som passer godt i undervisningen i norskfaget i den videregående skolen. Felles for artiklene er at de reflekterer over vårt forhold til tekster som den litterære institusjon til ulike tider har pekt ut som viktige og lesverdige. Samlet kan artiklene ses som et innlegg i debatten om den litterære kanon. Er det for eksempel sikkert at Petter Dass var den folkelige dikteren vi ser for oss, eller at Amalie Skram først og fremst var naturalist? Boken handler om å lese tekster, og tar blant annet for seg Voluspá, Kongesagaen, Ludvig Holberg, Knut Hamsun og Tarjei Vesaas. Artiklene er lettleste, og retter seg først og fremst mot norsklærere. Den passer også for andre som er opptatt av litteratur.

В монографии обобщены данные о таксономии, номенклатуре, географическом распространении и некоторых аспектах биологии моллюсков пресных и солоноватых вод территории бывшего СССР. Всего в настоящий каталог включены данные о 424 номинальных видах класса Bivalvia и 728 номинальных видах Gastropoda. Актуальное видовое богатство водных континентальных моллюсков бывшего СССР, вероятно, существенно ниже, поскольку валидность многих из номинальных видов нуждается в дополнительном подтверждении, и в будущем часть из них может быть сведена в синонимы. Каждому виду посвящен краткий очерк, построенный по единой схеме. Также в каталоге содержатся данные о распространении всех видов моллюсков по отдельным регионам бывшего СССР, сведения о вселении инвазивных видов, информация об охранном статусе отдельных видов в соответствии с критериями МСОП. Также приведены количественные данные о сходстве водных фаун отдельных регионов бывшего СССР и результаты кластерного анализа, выполненного на их основе. Книга предназначена для специалистов в области малакологии, биогеографии, гидробиологии, а также для преподавателей и студентов высших учебных заведений. The monograph summarizes information on taxonomy, nomenclature, distribution and some aspects of bionomics of molluscs of the former USSR fresh and brackish waters. This 'Analytical catalogue' is a deeply improved and updated version of two previously published catalogue works

(Yu.I. Kantor, A.V. Sysoev "Catalogue of molluscs of Russia and adjacent countries", 2002, in Russian; and Yu.I. Kantor, M.V. Vinarski, A.A. Shileyko, A.V. Sysoev "Catalogue of the continental mollusks of Russia and adjacent territories", 2010). In total, the data on 424 nominal species of Bivalvia and 728 nominal species of Gastropoda are included into this book. The actual species richness of aquatic continental molluscs of the former USSR perhaps is significantly lower since validity of many of these nominal species may be questioned and a portion of them is destined to be synonymized in future. During preparation of the book the authors tried to take into account different views on systematization of the ex- USSR aquatic molluscs and to find some correspondence between the 'Russian' system (founded in 1960-1970s by Ya.I. Starobogatov) and the approach followed by malacologists working outside Russia. Current approaches to the 'species problem' in malacology are briefly discussed. Also, the catalogue includes information about distribution of all molluscan species among large regions of the former USSR area, some data about invasions of alien species and the conservation status of indigenous taxa in accordance with IUCN Red List criteria. The quantitative estimates of faunistic similarity between aquatic malacofaunas of the ex-USSR large regions and the results of the cluster analysis carried out on the basis of these estimates are also provided. The book is addressed to malacologists, biogeographers, hydrobiologists as well as to university lecturers and students.

"Addressing herself equally to those who argue for proto-feminist Boccaccio - a quasi-liberal champion of women's autonomy - and to those who argue for a positivistically secure, historical Boccaccio who could not possibly anticipate the concerns of the twenty-first century, Migiel challenges readers to pay attention to Boccaccio's language, to his pronouns, his passives, his patterns of repetition, and his figurative language. She argues that human experience, particularly in the sexual realm, is articulated differently by the Decameron's male and female narrators, and refutes the notion that the Decameron offers an undifferentiated celebration of Eros. Ultimately, Migiel contends, the stories of the Decameron suggest that as women become more empowered, the limitations on them, including the threat of violence, become more insistent."--Jacket.

Volume One in a new series, this book covers Norwegian women's writing over the last 150 years, setting literary developments against the background of the emergence and growth of the women's movement in Norway. The work is divided chronologically into three sections: the period up to 1913, when the universal suffrage was granted; the period from 1913 to 1960, a time of stagnation in the women's movement, with little involvement in contemporary political, social and economic debates; and the period from 1960 to the present day, which has seen an increasing participation of women in public life. Chapters on individual authors concentrate on the images of the women portrayed and investigate the conflicts behind the text - the tensions between the authors and their work, and the ambivalent feelings of women authors towards the act of writing. The book should be of interest to all those concerned with women's writing and with Scandanavian literature and culture. The series provides a survey, country by country of women's writing from the beginnings of the major struggle for emancipation up to the present day. While the main emphasis is on literature, the social, political and cultural development of each country provides a

context for understanding the position and preoccupations of women writers. Modern critical currents are also taken into account in relating feminist criticism to recent critical theory. Forthcoming volumes in this series include "Women's Writing in Italy 1870-1990" and "Swedish Women's Writing 1850-1990".
