From the author of the New York Times bestseller *Letters of Note* comes a collection of 75 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Frederick Douglass, Justin Trudeau, Albert Einstein, Meghan Markle, Barbara

Jordan, and Ursula K. Le Guin. This thoughtfully curated and richly illustrated collection celebrates oratory old and new, highlighting speeches we know and admire, while also shining a light on profound drafts that were never delivered or have until now been forgotten. From George Bernard Shaw's warm and rousing toast to Albert Einstein in 1930 and the commencement address affectionately given to graduates at Long Island University by Kermit the Frog, to the chilling public announcement (that was thankfully never made) by President Richard Nixon should Neil Armstrong and Buzz Aldrin become stranded on the moon, *Speeches of Note* honors the words and ideas of some of history's most provocative and inspiring personages.

As budgets tighten for school districts, a sound understanding of just how teaching and administration translate into student learning becomes increasingly important. Rebecca Barr, a

researcher of classroom instruction and reading skill development, and Robert Dreeben, a sociologist of education who analyzes the structure of organizations, combine their expertise to explore the social organization of schools and classrooms, the division of labor, and the allocation of key resources. Viewing schools as part of a social organization with a hierarchy of levels—district, school, classroom, instructional group, and students—avoids the common pitfalls of lumping together any and all possible influences on student learning without regard to the actual processes of the classroom. Barr and Dreeben systematically explain how instructional groups originate, form, and change over time. Focusing on first grade reading instruction, their study shows that

individual reading aptitude actually has little direct relation to group reading achievement and virtually none to the coverage of reading materials once the mean aptitude of groups is taken into consideration. Individual aptitude, they argue, is rather the basis on which teachers form reading groups that are given different instructional treatment. It is these differences in group treatment, they contend, that explain substantial differences in learning curricular material.

A “radical” approach to holistic healing that examines the root causes and cures

for ailments such as Alzheimer’s disease, breast cancer, and heart attacks • Offers cutting-edge detoxification and draining therapies to address the tremendous chemical onslaught of modern life • Explains the profound health problems caused by dental amalgams, vaccinations, antibiotics, cosmetics With the historic use of toxic mercury amalgam fillings, excessive courses of antibiotics, damaging childhood vaccines, and the many industrial pollutants and chemicals that have been spread into our air, water, and food over the past century, general holistic health guidelines are simply no longer adequate for most people. Only through radical measures--that is, getting to the true root or underlying cause of disease--can effective healing occur. In Radical

Medicine, naturopathic physician Louisa Williams describes how to treat these and other modern-day “obstacles to cure,” in order to ensure against future degenerative disease and achieve the optimal health that is our birthright. Examining the many health problems triggered by dental amalgams and poor dentistry, Dr. Williams explains that our teeth are focal points for health issues that arise elsewhere in the body. She explores the impact of vaccinations, the excessive use of antibiotics, and the chemical-laden products used as health and beauty aids--which are linked to Alzheimer’s disease, heart attacks, and breast and other cancers--and provides information on cutting-edge detoxification treatments as well as drainage and nutritional therapies. A

practical guide for practitioners and patients alike, Radical Medicine offers a wealth of holistic, natural therapies for overcoming what is poisoning us and our world so we can achieve optimal health and well-being.

REVIEW OF ALPINE CDA 7873 USER GUIDE

- Let me get this straight: A Princess of Mars was written in 1911? This space opera by Edgar Rice Burroughs contains all the fast-paced action and graphic

violence of a modern day action movie. Hard to believe it was written almost one-hundred years ago. This is the first in the series of books about John Carter, Warlord of Mars. Carter, a Civil War veteran from Virginia, finds himself on Mars and in the middle of continual fighting between the tribes of Martians, some of whom are pretty nasty fellows. The Martian atmosphere gives Carter some extra abilities that the otherwise stronger Martians do not have. Of course, some of the Martian races look quite human, and Carter falls for the sexy Dejah Thoris, a princess of one of the more homosapien-like species. This tale is just good old-fashioned fun. Another of Burrough's fictional creations is more famous, the jungle lord Tarzan, but I believe now is the time for John

Carter to become as popular. Despite its age, this book would appeal to today's movie audiences. With the successful crossover of fantasy novels into movies such as *The Lord of the Rings* and the *Chronicles of Narnia*, the time is ripe for John Carter novels to be transformed into motion pictures. From what I've read, it has been proposed over and over for years, but until now, computer graphics probably would not have done it justice. A Princess of Mars would be a spectacular sight to see on the big screen. In the meantime, indulge in the guilty pleasure of reading this gratuitously violent, rip-roaring, somewhat sexist tale of the swashbuckling John Carter.

- Fun to read again A good free book. Can't wait to read the rest of the series

again. Will also look for other WEB books.
