REVIEW OF CRYO ZELTIQ CRYOLIPOLYSIS BEAUTY MACHINE CAVITATION RF

- I am going to put in my two cents, even though there are already 682 reviews. I thought this book was brilliant. I read about 10 pages before going to bed, and then I read the rest of the book the next day. It was very powerful! I am 32, and I read it, and it blew me away! It isn't just a young adult novel. Lowry creates a utopia, and then her viewpoint character is the misfit, the one set apart within that utopia. I won't sum up what happens, because others have already done this, but if I were to teach a Science Fiction class, and could choose only a few books for my students to read, this is one of the ones that I would

choose. It reminded me of Robert Cormier's *The Chocolate War*, in some ways. I have read through a few of the reviews, and they say it was a good book until the ending, which they didn't like. I thought the ending was the most powerful, poetic part of the book. The ending was perfect. It was nebulous, and we aren't sure what will happen, but Jonus has won, whatever he finds at the end of the hill. Everything doesn't have

to have the hollywood, or New York bestseller neat resolved ending. And this is the end of the book - there shouldn't be any kind of sequels, because that takes away power from Lowry's ending. Pick up this book!

- i read the book a while ago and it had good parts and bad parts but overall it was kinda chessey, i woundnt give it to any of my friends
