REVIEW OF TRADING CHAOS MAXIMIZE PROFITS WITH PROVEN TECHNICAL TECHNIQUES 2ND EDITION

- Wellington Jones needed to man up and stand up to his mother, but the story that unfolds had me FLOORED!
- Explorer, scholar, scientist, author and poet, Charles Montagu Doughty (1843-1926) was one of the greatest 19th century adventurers, the progenitor of a noble tradition that includes Lawrence of

Arabia, to whom he was a mentor, and Wilfred Thesiger: British writers who have been fascinated by the Bedouin, and in particular by that strange, mythic part of the world, the Empty Quarter -- a phrase which Doughty introduced to the West. Born in Suffolk in 1843, the son of a clergyman, in the 1870s Doughty spent two years wandering through Arabia, first with the "Hadj" pilgrimage, then joining nomadic bands of Arabs, sometimes being kept as a virtual prisoner in far-flung desert towns. Unyielding in his independence of mind, the tall, red-bearded Doughty consistently refused to conceal his Christianity, making his perilous travels even more dangerous: he was threatened with death several times, spurned, insulted and often beaten by angry mobs. He risked all many times over, sometimes seemingly possessed by an almost messianic vision of himself; yet he was ultimately to find among the Bedouin a chivalry and honour that suited his own unbending temperament. The story of Doughty's obsessive archaeological investigations and wide-ranging observations of Arabia and desert life were published in 1888 as the vast and celebrated "Travels in Arabia Deserta". Although the book brought him little in the way of financial reward, he was now feted by the literary establishment; but his abrasiveness and refusal to compromise meant he frequently found himself at odds with the learned societies of England and Europe, his work rejected and his genius (as he saw it) neglected. Doughty was far more than an eccentric traveller and adventurer. He was dedicated to his great mission of rescuing the English language from the decadence into which he believed it had fallen since the eras of Chaucer and Spencer, and spent ten years devising, researching and writing a four-volume blank-verse epic about the origins of Britain. He died in 1926, his literary reputation largely restored thanks to the efforts of T.E. Lawrence. His monumental work "Travels in Arabia Deserta" was first published in 1888. In 1921, T.E. Lawrence convinced Jonathan Cape to reprint the book and contributed a Foreword to it. Both Hogarth and Doughty were major influences on T.E. Lawrence. Appendix I: List of Books Ordered by C.M. Doughty in the Bodleian Library 1868-1879, Appendix II: Draft of a Letter from Medain Salih to an unnamed correspondent, index, folding map (with 3 maps) at rear.
