REVIEW OF TEXTBOOK OF APPLIED ELECTRONICS RS SEDHA

- My 5 year old son loves I Spy, so the Easter bunny brought him this collection of 4 I Spy books in one volume. He is a beginning reader, and the pictures next to the words help to reinforce his reading skills. That said, the searches are pretty easy for him. His 3 year old sister

breezes through them quickly as well using the pictures in the list. They like to race to see who can find the objects fastest, but they have both mastered the entire volume since Easter, just over a week ago.

- This book is kind of ho-hum. Born in the high desert and lived on one of the largest cattle ranches in Northerner Arizona, I know the hardships, love and wonder that springs from the land.
