~~2. Annotation of Romeo and Juliet - The Prologue~~ SHAKESPEARE IN LOVE Prologue to ROMEO AND JULIET ~~Romeo \u0026 Juliet, Act 1: Prologue, Scenes 1 \u0026 2~~ Analysis of The Prologue from Romeo and Juliet

~~The Prologue~~ Romeo And Juliet PROLOGUE. Two households, both alike in dignity, In fair Verona, where we lay our scene, From ancient grudge break to new mutiny, Where civil blood makes civil hands unclean. From forth the fatal loins of these two foes. A pair of star-cross'd lovers take their life; Whose misadventured piteous overthrows. PROLOGUE - William Shakespeare

The obvious function of the Prologue as introduction to the Verona of Romeo and Juliet can obscure its deeper, more important function. The Prologue does not merely set the scene of Romeo and Juliet, it tells the audience exactly what is going to happen in the play. The Prologue refers to an ill-fated couple with its use of the word "star-crossed," which means, literally, against the stars.

Romeo and Juliet: Prologue | SparkNotes

The Prologue to Romeo and Juliet

Two households, both alike in dignity, In fair Verona, where we lay our scene, From ancient grudge-break to new mutiny, Where civil blood makes civil hands unclean. From forth the fatal loins of these two foes A pair of star-cross'd lovers take their life; Whose misadventured piteous overthrows Do with their death bury their parents' strife.

Romeo and Juliet Quotes: Prologue | SparkNotes

The Prologue is a key element in how our expectations of the outcome of the tragedy of Romeo and Juliet are handled. The Prologue, which was often delivered by an authorial character (see Gower in *Pericles*, Quince in *Midsummer Night's Dream*) served to establish audience expectation in Shakespeare's theatre for an audience with few preconceptions of this individual story but a complex understanding of the tropes of Renaissance tragedy.

REVIEW OF THE PROLOGUE ROMEO AND JULIET

- You are going to understand it or you are not going to understand it. But read it. Slowly but surely even those without science or math background the pieces start to fall together. Probably will take two or three readings but it is worth it.
- Mr. Garfinkel shares a bad dream with us of how unpleasant our lives could be made by unlimited assaults on our privacy.-- Instead of just getting telemarketing calls at dinner time, marketers send thousands of e-mails to follow up on every transaction you make (15,000 restaurants send you an e-mail coupon when they learn you are coming to New York on your honeymoon).-- Someone steals your identity by lifting a credit card application from your junk mail, spends \$150,000 in your name, and ruins your credit record for 7 years so you cannot get a mortgage or another credit card (after yours are cancelled)-- because the credit bureaus cannot clean this information out of their systems.-- You get locked in a "smart" elevator that has stopped functioning because it has recognized your fellow passenger as a criminal. You suffer from a psychotic assault by the criminal, as a result, who holds you hostage in the disabled elevator.-- Telemarketers get through your caller ID screen by using software to pretend to call from your relatives' telephone numbers.-- Your computer at work monitors your output, and sends you messages about needing to do more work. George Orwell feared the government as "Big Brother" in "1984." Mr. Garfinkel says that we have Big Brother under control, but profit-making enterprises are going to get us instead. We are at risk

from the universal use of the Social Security Number, "body identifying equipment" like fingerprint and voice print detectors, and massive data bases that are unwieldy. When focused on describing the parts of the threat that have not yet manifested themselves, Mr. Garfinkel is brilliant and effective. When focusing on the solutions, he is less so. Basically, he wants to create federal laws and a federal agency (albeit a small one) that will monitor technology threats and inform Congress on the choices to protect people. I think Mr. Garfinkel is pretty naive in thinking this will be enough. How much has Congress helped us stop intrusions from other forms of free enterprise? Basically, Congress listens to special interests far more than citizens. I marked the book down one star for these weak solution proposals. I do agree with Mr. Garfinkel when he says that technology is invasive. I think instead that we have to rely on our own efforts to protect our own privacy and that of people who we are responsible for. I also think we must business with companies that use our data in responsible ways, and demand full disclosure on privacy policies. For example, encryption technology can help a lot of companies allow us to work with these businesses in ways we prefer to. I can see the rise of intermediaries which provide confidentiality and data security. I certainly would like to do business with companies like that. Are there any entrepreneurs out there listening? After you have finished reading this book, think about how you can protect yourself from the worst invasions of your privacy. A good start is to get your name taken off of bulk lists. Change your address (using P.O. boxes and private services) and e-mail address often, if necessary, to help. Inquire about what other uses are made of the information you

generate. Ask to see your medical records. Find out how they are being sold, and make changes to put a stop to that abuse. Armed with this book, you can make a lot of progress in protecting yourself. Mr. Garfinkel deserves our thanks and support for providing this valuable information....
