## REVIEW OF LA NUOVA NORMA EN ISO 13849 1 2015 I CIRCUITI DI COMANDO

- Everyone, let's forget about the analogies to Stalinist Russia and all the other subterfuges used to acclaim a book that is nothing more than a devil-worshipping treatise. I simply don't understand how people can give accolades to this novel when it shows innocent people being driven mad, and even has a physically sickening scene of Satan rejoicing at the violent and gruesome death of a young child: "He was too young to have sinned." What is that? What does it even mean? I can understand all the clever references Bulgakov makes to Stalinist "purgings" and the like, but what his book boils down to, quite simply, is that Christianity is for the weak and insane, whilst Satanism is for the strong and admirable. But how admirable does Woland (aka the evil one) show himself to be when he takes joy in a child's death? Oh, and I really don't believe the Gospel NEEDED to be retold; especially from the viewpoint of one who obviously doesn't believe. The fat old Russian was simply fooling around, dabbling recklessly in witchcraft, and doing all he could to disparage the name of our Lord. I wonder why no one here has noticed the blatant attack on Christianity this book represents. The truth is, however, this book, though trying desperately to invert the Faustian myth, has only succeeded in further establishing it: the devil can only ever be a deceiver, and destroyer, a loathsome creature who hates mankind...such is Woland's character. I'm not here to push my religious views, and I know that my one star stance on this pernicious piece of literature will get me lots of "NO"s as to whether this was helpful (if it is even published). But I felt I had to get this out there, because it appears so many people are missing the essential point of Bulgakov's "classic": to besmirch the Church and anything holy because he, through his black witch wife, was messed up in the occult. But given all the praise heaped on this book, I think I should be allowed to differ, and should be given voice among all these Amazon posts. No matter what the outcome, however, Bulgakov and the Mrs. are doing their time. Justifiably so.

• I found this book to be a monumental disappointment. I was expecting to read a balanced and impartial account of the history of the Cold War. What I encountered instead is an almost pamphletarian capitalist manifesto. The book does a good job in exposing the many evils of Marxism-Leninism but it completely glosses over the equally evil aspects of the capitalist system, which have only worsened in the decade and a half since the end of the Cold War. An interplanetary visitor reading this book would be led to believe that all humans living in capitalist societies enjoy freedom, justice, equal opportunities and unlimited

possibilities of material and intellectual growth. Nothing could be further from the truth. I wonder if the author has ever had a chance to travel to, for example, Latin America (or even to areas of the U.S. less prosperous than the ones with which he may be more familiar), and experience first hand the many social and economic injustices bred by the capitalist system. As an aside, I also note with amusement that he correctly and consistently points out the fallacy in the central tenet of Marxism-Leninism that its triumph was historically preordained, yet he uses this same argument to justify the ascendancy of capitalism! I'm sorry, but you can't have it both ways.
