REVIEW OF AP BIOLOGY CHAPTER 18 D READING ANSWERS

- This is simply on of the most important books ever written in the field of hypnotherapy! Even though it is not a book about how to hypnotize or how to do hypnotherapy, Parkhill lays out a foundation of how chronic illness comes into our lives and how hypnotherapy can heal us. This is recommended reading for anyone going through our training programs at the Banyan Hypnosis Center for Training & Services, Inc (a state licensed school in Minnesota, USA). We also recommend it to our clients so that they grasp the power of what hypnotherapy can do for them. If you are a healer or hypnotherapist you need to get this book, or your education is not complete! Thank you, Stephen Parkhill for writing this important book. - This is one of the most profound books I have ever read in my life. Rav Michael Laitman has a way of writing that is so meaningful and multi-layered that you want to read and re-read his words, because each time you do, a new lesson is learned, a new concept is discovered. It is written so beautifully and treats Kabbalah with the reverence it deserves, not at all like some of the pseudo-new-age type books on Kabbalah on the market by other authors. This is truly a must-read for anyone serious about learning Kabbalah, and ascending spiritually.
