REVIEW OF TEST PAPERS

- I do not read Regency era novels as a rule... I gave them up. This one is different. Not only does Ms. Laurens

excell at atmosphere..she adds steam, great characters and by Regency standards a decent plot. I really enjoyed this book. The female lead is very strong, I like that . How many of you are bored with the 17 year old virgin plot? This is a mature romance (although the female lead is still a virgin) The dialog is smart. And yes you will hear the word NO many times when the answer is really ..YES! YES! This is my first Stephanie Laurens I will go GLOM the rest now.

- This book covers just about everything you need to know to grow the right way to get the most out of your plants. Covers everything from germination, to the different stages of growth, to harvest, to disease and pest curing and prevention. One of the most Thorough guides I've read so far! Definitely get it if you're new to growing, or even if you have been growing a while and wanna learn a few tricks you might not already know about (cuz its packed full of them).
