Hearings Before the Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws of the Committee on the Judiciary, United States Senate, Eighty-fourth Congress, First Session, Pursuant to S. Res. 58 ... Dramatic Publishing

Wrestling With God tells the story of the man who came to personify New Zealand's debates over the role and meaning of religious belief in increasingly secular age. In the public eye ever since his famed heresy trial in

1967, Lloyd Geering describes his journey from a Depression era childhood, through working as a young Presbyterian minister, to becoming Victoria University's foundation professor of religious studies and a bestselling author. Showing the rigorous commitment to truth and concern for others that have characterised his work, Geering also sets out his views on the spiritual life of Western culture in the early twentieth-first century, and the centrality of the human relationship with an endangered planet.

The American Magazine Lippincott Williams & Wilkins

This volume responds to the challenges posed by the rapid developments in satellite TV and digital technologies, addressing media ethics from a global

perspective to discuss how we can understand journalism practice in its cultural contexts. An international team of contributors draw upon global and non-Western traditions to discuss the philosophical origins of ethics and the tension that exists between media institutions, the media market and political/ideological influencers. The chapters then unveil the discrepancies among international journalists in abiding by the ethics of the profession and the extent to which media ethics are understood and applied in their local context/environment. Arguing that the legitimacy of ethics comes not from the definition per se, but from the extent to which it leads to social good, the book posits this should be the media's *raison d'être* to abide by globally accepted

ethical norms in order to serve the common good. Taking a truly global approach to the question of media ethics, this volume will be an important resource for scholars and students of journalism, communication studies, media studies, sociology, politics and cultural studies.

Hearings Before the United States Senate Committee on the Judiciary, Subcommittee To Investigate the Administration of the Internal Security Act and Other Internal Security Laws, Eighty-Fourth Congress, First Session, Eighty-Fourth Congress, Second Session
Bridget Williams Books

In this study of busy, complex Regional City -- and it is a real city -- the author has analyzed the power structure from

top to bottom. He has searched out the men of power and, under fictitious names, has described them as they initiate policies in their offices, their homes, their clubs. They form a small, stable group at the top of the social structure. Their decision-making activities are not known to the public, but they are responsible for whatever is done, or not done, in their community. Beneath this top policy group is a clearly marked social stratification, through which decisions sift down to the substructures chosen to put them into effect. The dynamic relations within the power structure are made clear in charts, but the real interest lies in the author's report of what people themselves say. The African American community is also studied, with its own

power structure and its own complicated relations with the large community. The method of study is fully described in an Appendix. The book should be of particular value to sociologists, political scientists, city-planning executives, Community Council members, social workers, teachers, and research workers in related fields. As a vigorous and readable presentation of facts, it should appeal to the reader who would like to know how his/her own community is run. Community Power Structure is not an expose. It is a description and discussion of a social phenomenon as it occurred. It is based on sound field research, including personal observation and interviews by the author.

REVIEW OF THE LUNCHEON QUESTIONS AND ANSWERS

• I discovered Julie Garwood by accident and I've gone through most of her books in record time. This is one of the sweetest little stories around. If you're only interested in raw sex, look

somewhere else. If you want romance, interesting and endearing characters, a good story, and if you like "braw" Scottish Lairds with a tender side, this is the book for you.

• I'm a fan of Ms. Garwood, but please madame, try to enforce some shrewdness into your heroine's character. Gillian just irritated and upset me throughout the novel. She is described as having a strong character, but does nothing to emphasize this. I found her dense, very slow in the brain, and lacking, especially when the priest was marrying her to the hero (couldn't she get the hint that she was getting married, how stupid can a person be!) As for the hero, I must admit that for the setting of the story, he was described in such a way that did justice to his

character as a Scottish laird, even if all he wanted to do was to get her in the sack.
