A User's Manual to the PMBOK Guide BenBella Books, Inc.

Essential project management forms aligned to the PMBOK® Guide—Sixth Edition A Project Manager's Book of Forms is an essential companion to the Project Management Institute's A Guide to the Project Management Body of Knowledge. Packed with ready-made forms for managing every stage in any project, this book offers both new and experienced project managers an invaluable resource for thorough documentation and repeatable processes. Endorsed by PMI and aligned with the PMBOK® Guide, these forms cover all aspects of initiating, planning, executing, monitoring and controlling, and closing; each form can be used as-is directly from the book, or downloaded from the companion website and tailored to your project's unique needs. This new third edition has been updated to align with the newest PMBOK® Guide, and includes forms for agile, the PMI Talent Triangle, technical project management, leadership, strategic and business management, and more. The PMBOK® Guide is the primary reference for project management, and the final authority on best practices—but implementation can quickly become complex for new managers on large projects, or even experienced managers juggling multiple projects with multiple demands. This book helps you stay organized and on-track, helping you ensure thorough documentation throughout the project life cycle. Adopt PMI-endorsed forms for documenting every process group Customize each form to suit each project's specific needs Organize project data and implement a repeatable management process Streamline PMBOK® Guide implementation at any level of project management experience Instead of wasting time interpreting and translating the PMBOK® Guide to real-world application, allow PMI to do the work for you: A Project Manager's Book of Forms

provides the PMBOK®-aligned forms you need to quickly and easily implement project management concepts and practices.

COBIT 5 Project Management Institute

A Guide to the Project Management Body of Knowledge (PMBOK® Guide) provides generalized project management guidance applicable to most projects most of the time. In order to apply this generalized guidance to construction projects, the Project Management Institute has developed the Construction Extension to the PMBOK® Guide. This Construction Extension provides construction-specific guidance for the project management practitioner for each of the PMBOK® Guide Knowledge Areas, as well as guidance in these additional areas not found in the PMBOK® Guide: •All project resources, rather than just human resources •Project health, safety, security, and environmental management •Project financial management, in addition to cost •Management of claims in construction This edition of the Construction Extension also follows a new structure, discussing the principles in each of the Knowledge Areas rather than discussing the individual processes. This approach broadens the applicability of the Construction Extension by increasing the focus on the "what" and "why" of construction project management. This Construction Extension also includes discussion of emerging trends and developments in the construction industry that affect the application of project management to construction projects.

Understanding governance as it applies to portfolios, programs, and projects is growing in importance to organizations, because appropriate governance is a factor in the success or failure of strategic initiatives and portfolios, as well as an organization's programs and projects. Implementing an effective governance framework can be challenging due to factors such as increasing business complexities, regulatory requirements, globalization, and rapid changes in technology and business environments. Many organizations do not have a consistent approach to portfolio, program, and project governance. PMI's Governance of Portfolios, Programs, and Projects: A Practice Guide, developed by leading experts in the field, provides guidance to organizations and practitioners on how to implement or enhance governance on portfolios, programs, and projects. This practice guide provides definitions for governance in an effort to distinguish the different levels of governance and to identify their common elements.

Keep in mind, reading testimonials can assist you make educated choices regarding what to review next and can subject you to new authors and categories you may not have actually considered previously.

REVIEW OF PMBOK ITALIANO 5

• I read the many superlative reviews of this book and purchased it last month. I thought the people who wrote in that they couldn't finish the book were just being obnoxious. To my dismay, I would

have to agree with them. Yes, the plot is fine, and the book is imaginative. The rival families/spice/Gesserit are somewhat interesting. But I had to put the book down 2/3 of the way through. It's just so boring, and convoluted, I couldn't take it. I found no pleasure in having to work through it. Anti-semitic? I doubt it. Bad grammar in spots? Yeah sure, but not a big deal. In short, a good book, but clearly not in the same league as J.R.R. Tolkien's "The Lord of the Rings." P.S. No one talks about this book...at all. Just wait until Tolkien's movies come out. See the difference for yourself.

• In the very far future, the Atreides and the Harkonnen families are reaching the peak of their unending feud. When the Padishah Emperor - the ruler of all the known worlds - discovers that the Atreides army is becoming dangerously strong, he develops a complex frame-up to wipe-out the whole Atreides family. The Duke of Atreides is invited to accept the job of administering the planet Arrakis, also known as Dune. On this desolate, almost uninhabitable planet only one thing is of value: the spice Melange, a drug that makes space travel possible. At first this seems to be a fabulous gift, but soon the Duke suspects the true reason for the Emperor's generosity: with the help of the unbeatable army of the Emperor the Harkonnen family attack the planet Dune. All seems lost for the Atreides, but there is still hope: Paul Atreides, the Duke's son, has more power than seems feasible at first sight. Dune is consistently voted the Number One science fiction book of the century by readers all over the world. Overrated? Reason enough to give it a try - I thought - so I embarked on this epic voyage to the planet Dune, although packed with quite a lot of scepticism. But surprisingly, I didn't regret my decision for a single moment: this is truly a Classic Masterpiece. The narrative of Frank Herbert is simply addictive; his insight into the fantastic gives evidence of pure mastery. The images used to describe the planet of Arrakis are overwhelmingly strong. The human struggle for survival in the most relentless conditions imaginable is so intensely portrayed that the planet itself becomes one of the major villains of the book. Nevertheless, Frank Herbert writes with such involvement that there is no doubt as to the reasons people might have for living in such conditions. High drama and complex plots, filled with treachery within treachery, makes this book an experience you never to forget. A must read for everyone interested in fantasy and science fiction.
