REVIEW OF BUSINESS LAW KEITH ABBOTT 8TH EDITION SUECIA

- This series is totally rad. Thinking about the year 2000? This could be the next millenium!
- After having read the first six books of this series I felt I had a pretty good understanding of where Mr. Jordan was going with this. His ability to leave connections that can lead the story in

more than one path is astounding. Most Sci-Fi books set a path and go along it even when the reader can guess what will happen next. Robert Jordan has shown his talent by leading us to believe that a battle with one of the foresaken will not happen until another book, but instead occurs within the last 20 pages. The only thing I did not particularly like in this one was the fact that it did not

have as much of an dramatic build-up and ending as the others an had too much description of things like emotion and scenery. But I can clearly see that this book was mostly for bricklaying of the next book which I am still anxiously awaiting. I expect the next book will deliver more action and less description of emotion and scenery.
