Public administration ensures the development and delivery of the essential public services required for sustaining modern civilization. Covering areas from public safety and social welfare to transportation and education, the services provided through the public sector are inextricably part of our daily lives. However, mandatory budgetary cuts in recent years have caused public administrators to radically re-think how they govern in the modern age. In this Very Short Introduction Stella Theodoulou and Ravi Roy offer practical insight into the major challenges confronting the public sector in the globalized era. Tackling some of the most hotly debated issues of our time, including the privatization of public services and government surveillance, they take the reader on a global journey through history to examine the origins, development, and continued evolution of public administration. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Material presented in many testing textbooks is appropriately broad and comprehensive, but the effect for students new to testing is difficulty in then translating the extensive information into the practical skills of administering, scoring, and interpreting tests to help inform the treatment process. Few resources exist to help students and mental health clinicians with the daunting task of learning how to synthesize test data from numerous instruments into a meaningful treatment plan and strategy for a client. This book was written to address that need. It provides readers with clear and detailed step-by-step procedures for using the WAIS-III, MMPI 2, MMPI A, Kuder Occupational Interest Survey, and the Strong Interest Inventory. It features case examples and practice opportunities in test usage, detailed discussion of approaches to client feedback and report writing, and a review of ethical and legal considerations in using tests in clinical settings. It takes readers through a systematic explanation of how to understand and integrate data from multiple sources to maximize the information gleaned from the tests. It also emphasizes using test data to maximize helpfulness to the client and how to interpret test data to clients in language that is understandable.

Nonprofit organizations are under increasing pressure to demonstrate impact and that the funds raised to operate their organizations are maximized and used effectively. This book demonstrates how to create a culture of learning (intentional learning from reflection and feedback focused on successes and failures) that will lead to ongoing performance measurement and improvement. Because nonprofit organizations rely heavily on volunteers and are focused on mission, not money, it is critical for them to create a culture in which learning is a motivator for change. The book breaks down learning into four levels: individual, team, whole organization and community. Learning at each of these levels is described and then specific tools are presented. The tools are hands-on and practical, which facilitate reflection and feedback.
