Remember, checking out reviews can help you make educated decisions regarding what to read next and can reveal you to new authors and genres you might not have taken into consideration in the past.

REVIEW OF OXFORD UNIVERSITY PRESS SOLUTIONS ELEMENTARY TEACHERS BOOK

- My only real beef with this book is the poly modelling examples are pretty dull although they've been designed to introduce you to all the features of Maya, there's a good section on paint effects and use of constraints / dynamics. This will teach you a lot, I think you'd learn a lot more from the Mastering Maya 3.0 book though, even if you've only v.4.0.

- The product was as good as was advertised, and it got here very quickly!
