REVIEW OF MANUAL STATISTICA 10 DATA ENTRY

- I was very disappointed in this

book. I found the character development poor and I was tired of Tanya in each chapter discussing her desire to leave Curtis but why she couldn't. She also spent a great deal of time discussing abused women and too much detail on clothing, cars, coach bags, etc.. which was unnecessary for me. Overall, I was not impressed. I also did not find the writing challenging. This is no J. California Cooper or Toni Morrison.

- I liked the premise, and I also like that the character seemed to be able to see through her husband's lies. The problem was that for

the whole first half of the book, Tanya seems to do nothing but mull--over and over again. I wanted to yell at her to just follow the man instead of confronting him for the umpteenth time and doing nothing. As previous readers say, the book takes way too long make small progressions, yet seems to skip over important details--especially like how Curtis became the man he is and started his life of deception; and Tanya's relationship with Rebound Man seems too rushed. The premise of the book, I like, I just really dislike the pacing.
